Dr Greer,

Is it that you just do not answer emails or that you do not want my testimony regarding my involvement with the multi-national R&D group under [REDACTED] have tried unsuccessfully to contact you as asked since 1997 and have never heard back from you.

This group sponsored over 50 advanced "saucer" propulsion projects beginning in the early 1950's. I was recruited by them in Dallas and was sent to Melbourne, Australia to work for them under Sir [REDACTED]

In the late 70's this group lost control of their own group to what I must assume was an advanced alien presence on the planet. Originally, in the mid 50's, [REDACTED] coordinated the effort to separate a technological development stream from the public R&D streams. This cloistered stream was used to develop extremely advanced power generation and propulsion methods (It was because of my own research into these two areas that I, too, was recruited in 1971).

The group had such highly placed members in many areas of the various nations involved that they were able to either squash newly discovered technologies which they had already sequestered in that 'cloistered stream' or they were able to recruit the inventors into their own projects.....

If you are truly wanting to bring the truth of the whole deception to light, you must consider what I have to contribute. Mankind is facing its greatest test soon.... one which will see billions die in the wars, famines and geophysical distresses which will attend and follow the formally announced arrival of the "alien" presence here. You cannot tell the whole story nor help the people to have hope unless you tell ALL the story including how we kept so much from them for the last 50 years.

I will continue to share my information as widely and as vocally as I can regardless of whether you use my testimony or not. If you do not use it, then I will assume you are working to an agenda which is not interested in the truth of the this whole affair.

I can be reached in Australia by:

FAX: [REDACTED]
TEL: [REDACTED]
email: [REDACTED]
Snail mail: [REDACTED]

I have asked to be re-admitted into the United States as a citizen. My CLN petition has been with State for 4 months now and I DO intend to make waves about this whole affair when I get back home. There are still elements of our government there which have no idea what has transpired right under their noses.

That's all I have to say today.....
