4 OCT 2000

Hi Steven

As promised, enclosed is a selection of British documents (RAF, MoD, Police). All of these have been officially released via the Government's "30 Year Ruling". In some cases, however, the documents were held under extended closure. I've purposefully just included reports from qualified sources (military, radar operators, police etc); as you know it's these type of reports that hold most weight when trying to get a message across. The breakdown of enclosures is as follows:

1. A 1-page WW2 report titled "PHENOMENA" that deals with Foo Fighter and "disc" sightings by British/US pilots in 43/44. Classified "Secret".
2. 3-pages from a "Top Secret" document titled "Unconventional Aircraft". This is a file that shows someone in the old Air Ministry was very interested in UFO-type technology as far back as late 40s. The file is packed with newspaper/magazine articles on advanced aircraft/UFOs. To illustrate this, I'm enclosing the cover of the document (which you'll see was classified TS and even states on the cover that it has to be kept under lock & key at all times and the name of the document must not appear on the cover!). I'm also enclosing 2 entries from the file showing the sort of magazine/news articles that this branch of the Air Ministry (the Scientific and Technical Intelligence Branch - STIB) was receiving at the time.
3. A 1-page "Secret" doc. from 1956 warning RAF personnel not to talk about UFO encounters outside of official channels (titled "Reports on Aerial Phenomena".)
4. A 1957 report from West Freugh, Scotland (2-pages) concerning 5 huge objects tracked on radar flying over Scotland. As you'll see, the Air Ministry ruled out all conventional explanations and concluded that 5 unidentified objects were indeed present.
5. A 1-page report from 1965 of a fleet of Flying Triangles seen over the UK. Note entry "f" which describes the FTs as having rounded corners - very like many of today's.
6. A 1-page "Secret" document from 1958. See the entry under "Press Publicity" which states that military people talking to

the Press about unknown radar reports will be in violation of the Official Secrets Act.

7. A 3-page (inc. drawing) document concerning a police officer's UFO encounter at close quarters in 1966.

Hope this is of help. Any queries/questions, you can contact me from saturday 7 Oct onwards when I'll be back from Scotland.

All the best

Nich

PHENOMENA. Under this heading there occur from time to time reports of weird and wonderful apparitions seen during our (and the American) attacks on Germany. We have asked our local Inner Circle bloke to comment on the latest species of wizardry. Here is his story...believe it or not..

On the 11th December the Yanks paid one of their daylight visits to Emden

Page. 1.

SECRET

Page. . 2.

BANG ON....NO. 1.

4

Visibility was GOOD and the weather clear. " An unidentified object was seen in the target area. It was about the size of a Thunderbolt and passed 50/75 yards beneath the formation. It flew STRAIGHT AND LEVEL (No chaps it was not a Lanc gone mad..) at a terrific speed, leaving a streak like a vapour trail which was all white and which remained visible for a long time. The object passed so quickly that the observer could not determine it more accurately. .." 1
✓

Suggestions will be welcome...serious ones....as to what this Loch Ness Monster of Emden might have been. (Prize...one year's free issue of this News Sheet..if the publication survives as long.)

Another of the attacking aircraft was hit by a length of wire which bit deeply into the nose. 20 feet were coiled around the nose and something caused the bomb door to open. The wire may have been towed behind a fighter which had just made an attack upon the bomber; some form of explosive charge or weight may have been attached to the wire cable. Another possibility is that the wire may have been attached to a parachute fired from a rocket projectile, though no parachute was seen. An examination of the wire is taking place and it is hoped that this will shed some light on the occurrence.

In another attack..this time on Bremen...there were many reports of "silver and red discs above the formations". These have been seen before but up to now no one has been able to decide their purpose. Suggestions please.

REPORT ON AN UNIDENTIFIED FLYING OBJECT

a. Date, time and duration of sighting (local)

21 25 Local 28th. March, 1965
b. Position of Observer.

In Skeehy, Richmond, Yorkshire.

c. Direction. (A landmark may be more useful than a badly estimated bearing).

Passed directly over Richmond heading south

d. Angle of Sight. (Estimated heights and distances are unreliable).

Low angle - U.F.O's were very low down.

e. Movement. (Changes in c. and d. over the period, rather than estimates of course and speed). Maintained southerly heading. Switched lights off approaching Richmond and put them on again over moors beyond Richmond.

f. Description. Nine or ten objects - in close triangular formation each about 100 ft. long - orange illumination below - each triangular in shape with rounded corners, making low humming noise.

g. Name and address of informant. Mr. Geoffrey Brown,
46, Lindsay Road,
Skeehy, Richmond, Yorks.

h. Any background on the informant that may be considered.

Worker in shoe and slipper factory (Fairfield Works)

i. Other witnesses.

Not known

k. Date and time of receipt.

28th. March.

submitted

Subject:—

UNIDENTIFIED FLYING OBJECT SEEN AT WILMSLOW
AT 4.10 AM on Friday 7th January 1966.

Sir,

I have to report that I have been in the Police Force for almost four years. I am 28 years of age, a married man and I reside with my wife and one child in a Police House - 42 Northward Road, Wilmslow, Cheshire. I am in excellent health and I have no worries of any description.

On the night of Thursday/Friday the 6th to 7th January 1966, which was a cold clear night and started with a full moon which made visibility very good. I commenced duty at 10pm on the 6th and due to finish duty at 6am on the 7th. At 1.15am on the 7th I had my refreshments at Wilmslow Police Station where I resumed normal patrol at 2am on this date where I commenced walking around the village. I was alone on this occasion.

About 4am on the 7th I was checking property at the rear of a large block of shops which are situated off the main A.34 Road (Alderley Road) Wilmslow. At 4.10am I was still checking property and facing the back of the shops when I heard a high pitched whine, for a moment I couldn't place the noise as it was most unfamiliar to the normal surroundings. I turned around and saw a Greenish/Grey glow in the sky about 100 yards from me and about 35 feet up in the air. I was standing at point 'A' on the attached map and the object was at point 'B'. I stopped in my tracks and was unable to believe what I could see. However I gathered myself together after a couple of seconds and made the following observations. The object was about the length of a bus (30 feet) and estimated at being 20 feet wide. It was elliptic in shape and emanated a greenish grey glow which I can only describe as an eerie greeny colour. It appeared to be motionless of itself, that is there was no impression of rotation. The object was about 15 feet in height. Sketch attached. The object had a flat bottom.

At this time it was very bright and there was an East wind

Continuation Sheet No. 1.

although it was cold there was no frost. No cloud formation was anywhere near ground level.

The object remained stationary for about five seconds then without any change in the whine it started moving at a very fast rate in an East-South-East direction. It disappeared from view very quickly. When it started moving it did not appear to rotate but move off sideways with the 30foot length to the front and rear. It is possible the short side given as 20feet may in fact be longer as I was looking underneath the object at the time and may have been deceived.

About 500 yards away from where I was standing there is an Electric Railway line but the noise I heard was nothing to do with either Electric or Diesel Trains.

About 50 yards from where I was standing is a Transformer belonging to the Electric Company this is a Sub-Station and the noise I heard is of no comparison to the hum from this.

There is no doubt that the object I saw was of a sharp distinctive, definite shape and of a solid substance. However I did not notice any vents, portholes or other place of access. The glow was coming from the exterior of the object and this was the only light which was visible.

I checked with Jodrell Bank and Manchester Airport Control shortly after the incident but they could not help or in any way account for what I had seen.

The attached sketch of the object was made about 20 minutes after the sighting. Neither this sketch or the sketch of the area are drawn to any scale.

 Constable 136.
Colin Glive Perks.
