

Abstract IX: More testimony to a 1953 crash, with dead humanoids

The following letter, quoted in part, was received from Richard Hall of MUFON. It is dated April 8, 1964, and the name of the source is deleted on request.

"Here at school there is an instructor who, during the Korean conflict, was adjutant to an Air Force General at one of our New Mexico proving grounds. I got the following story from him:

"In 1953 a flying saucer crash-landed near the proving grounds. Air Force personnel immediately rushed to the area and found the saucer, unharmed and unoccupied with doors open. Upon searching the surrounding area they came upon the bodies of the saucer's four occupants, all dead.

"Shortly after this certain top level personnel were given the true saucer story by Air Force officials. My source was included in this. They were shown the bodies of the four occupants of the ship, which he described as from three to four feet tall, hairless, and otherwise quite human in appearance. An autopsy had been performed on one of them to try to determine the cause of death. No cause for their deaths was ever found. Also at this time they were shown three saucers. He described them as ovoid, with a length of twenty-five feet and a width of thirteen feet. They were shown the interior as well, and there were no visible means of control, no visible means of propulsion. He told me that since that time the Air Force has been working intensely, though unsuccessfully, at trying to discover the means of propulsion."

"I can vouch for the validity of this information as well as the reliability of the person I got it from. This you can state as positive fact. Due to the fact that he is still affiliated with the armed forces he prefers that his identity remain hidden. He also told me that this is top secret information which is highly guarded to prevent leaks."

Comment

I reserve my personal comment to a quote from Dick Hall's covering letter dated December 23, 1977, as follows:

"The chap mentioned in the letter is the one Todd Zechel finally tracked down,* and I went with him to interview the man, and had a face-to-face meeting with him here in Washington area. He was here on some church-related business. As former aide to a general and command pilot in Vietnam, I couldn't imagine a less likely hoaxer. He clearly took UFOs seriously. He wouldn't talk directly about what he had seen, but in company with the general he saw the evidence at Langley AFB, Virginia. Also our informant told us of an Air Force pilot who had told him of the southwest crash story."

Abstract X: Death-bed confession about dead humanoids

Charles Wilhelm, Director of the Ohio UFO Investigators League in Cincinnati, received the following information in 1966 from a schoolmate friend whose father was witness to a retrieved UFO and its occupants, again in 1953. The father, who made a death-bed confession to his son, had been head of military security at Wright-Patterson.

While on duty, the father related, he saw two disc-shaped metallic UFOs, one was damaged, the other intact. He also witnessed four dead alien bodies, packed in dry ice on their arrival. They were described as 4 to 5 feet tall, with heads disproportionately larger than their bodies and with slanted eyes. He said the rest of their bodies appeared to be human except that the fingers were noticeably longer than ours.

Comment

It seems that 1953 was a busy year for crashed UFOs and military retrievals.

Abstract XI: Saucer in distress: strange effect on vehicle exhausts

With the help of Lou Farish of MUFON I got the phone number of Cecil Tenney, aged 78, in Delta, Colorado, and called him March 7, 1978. I wanted to hear for myself his testimony relative to his alleged observation in 1953, near Dutton, Montana, of a low-level UFO in distress, or in a malfunctioning condition, and what he experienced during Air Force interrogation; also what he saw at the Great Falls AFB, which he believed were the recovered dead alien bodies.

In the fall of that year, near dusk, Tenney, driving alone from Great Falls to his home in Conrad in his pick-up, watched the troubled performance of a large cigar-shaped object near the town of Dutton. Appearing to be about one third the size of a football field, and about 200 feet away, the silvery object pulsated and belched out fire and smoke for about seven or eight minutes.

"It seemed to be trying to pull itself up, but it couldn't," said Tenney. Then he described an explosion and a swooshing sound that was followed by balls of fire hitting the road and as far as he could see. Two or three cars on the road coming from the opposite direction, he said, had their exhausts shooting out flames.

Tenney admitted that he was stunned and frightened by the spectacle. "I got out of there in a hurry," he said, "and stopped at the nearest place with a toilet. This was a beer hall which is about 5 miles beyond Dutton."

There, Tenney was told by the bartender that he "...smelled like lightning." Later, he learned that a state highway patrolman who also saw the UFO in distress had stopped in the saloon, and was given Tenney's name as a witness.

That same evening, according to Tenney, he got a phone call from a colonel at the Great Falls AFB, about 30 miles away. In a gruff voice, Tenney was told (not asked): "I want to see yuh!" He was instructed to report to the Air Base at a certain time the next morning.

When Tenney arrived at the base, he was escorted by two men into a jail-like, cinder block building and was led to the colonel's office. He was grilled with questions for 30 minutes, then he signed a 5-copy statement which was also signed by a notary public.

Following interrogation, Tenney was escorted downstairs and near the entrance door he encountered two military men arriving. Each of them was carrying a large blue bag over his shoulder. He guessed they were laundry bags but according to Tenney the bulges in the bag did not appear to be laundry. As Tenney moved toward the door, one of the men dropped his bag to the floor and it was then that Tenney could recognise the bulges to be shaped more like the protruding limbs of bodies. At this point, he was rudely pushed out of the door and told: "Get the hell out of here!"

Tenney told me he returned to his flower shop in Conrad very concerned about the harsh treatment he got at the base, and wondering about the contents of the laundry bags. Said Tenney, "I can't swear they were bodies, but the bags contained something they didn't want me to see."

Later Tenney heard of another witness, a brakeman on a passing train, who was knocked to the ground by the UFO's explosion.

Comment

Tenney is the only known witness to the event, with no other names to check for backup. However, he sounded convincing enough on the telephone, and made no hard claims to know the answers to the UFO's erratic or troubled behaviour, its noisy disgorging of flame and smoke, why tongues of fire shot out of automobile exhaust pipes, what the highway patrolman reported to the Air Force, why the colonel was so demanding and the escorts so rude, or what was inside the laundry bags that was so secret. Tenney's guess was that the UFO he had seen

in distress had crashed, and the bags contained dead occupants.

Abstract XII: Revelation by woman who catalogued crashed-UFO material

In the 1940s and 1950s Mrs. G. worked in the Foreign Materials Division, with a top security clearance rating, at Wright-Patterson AFB, and she retired from there in 1959 for health reasons. Charles Wilhelm, who has provided me with some first hand reports from people with information about UFO retrieval or related incidents, got this one from Mrs. G. in 1959. She had known Charles very well as a teenager on two counts: he was a good, honest worker in performing yardwork for her, and for his intense interest in UFOs. When she developed cancer, and knew of her impending death, she decided to relate to him some startling information about her secret duties at Wright-Patterson, and what she saw in the performance of these duties.

In 1955, according to Wilhelm, she was assigned to a post to catalogue all incoming UFO material, during which time approximately 1000 items were processed. These included items from the interior of a recovered UFO brought to the air base. All items were photographed and tagged.

In her cataloguing duties, Mrs. G. also was witness to the conveyance, by cart, of two dead humanoid bodies from one room to another. The bodies, preserved in chemicals, were four to five feet tall, had generally human features, except that the heads were large relative to their bodies, and their eyes were slanted. There was no word as to whether or not the bodies were brought in from a recent crash or had been at the base morgue from an incident occurring in previous years.

After telling Charles Wilhelm some of the barest facts she knew, she commented; "Uncle Sam can't do anything to me once I'm in my grave." Six months later Mrs. G. passed away.

Comment

The brief, but vital facts bared in the testimony of Mrs. G. are not to be underestimated. I firmly believe in Charles Wilhelm, and he, in turn, believed Mrs. G. Wilhelm told me he saw Mrs. G.'s Wright-Patterson AFB ID badge prior to her death.

Abstract XIII: Description of a photograph of alleged humanoid

The late James Mitchell was formerly a Navy specialist who served at an air station in Dallas, Texas, where his duties included the handling of confidential film. After retirement from the Navy in 1966, he became a civil service electrician at Wright-Patterson AFB, holding top secret clearance allowing him to work in high security areas on the base.

In 1977, in association with my regular employment, I met one of James Mitchell's sons. Knowing of my research, he came to my office to tell me of an incident in which his father was involved with the security officials at the Base, for having possession of a photograph of a small alien humanoid alleged
