Documents

REDWOOD CITY, California, March 13, 2001 the Majestic documents investigation team has just posted 27 documents comprising 65 pages of classified Majestic and authentication supporting material. In addition to new documents, the Witness Section, Majestic Personnel, Supporting Documents, and Document Sources all were expanded.

In the "Documents Obtained in 2000" section are summary abstracts of seven

documents comprising 19 pages of new material ranging in classification from Double Top Secret to Unclassified provide stunning new evidence for pre-1947 (Roswell) UFO events. Fascinating new information reveals the establishment of the Interplanetary Phenomenon Unit (IPU) as a result of two UFO crashes in 1942 shortly after the Los Angeles Air Raid (a famous UFO event in February 1942). Another document discusses the CIA, UFOs, and

Congress and how the CIA in fact briefed some congressional House and

Senate committees in the late 50's on UFOs. There is even a pitch by Dr. Edward Teller to President Regan about the Space Defense Initiative (SDI) in which he clearly shows a high degree familiarity with the UFO subject. Explore these and other documents at:

Leaked in the summer of 1999, 25 new pages from six different documents provide a rare glimpse inside the early 1960's CIA counterintelligence organization. Ten pages of Top Secret/MJ-12 directives on original onionskin paper with an eagle watermark are powerful examples of the CIA's involvement in MJ-12 with enticing statements linked to JFK's murder. Loaded with code words, LANCER, JEHOVAH, EVIRO, PARASITE, SPIKE, HOUSE CLEANING...etc the document allegedly was never officially reviewed by the CIA but removed from James J. Angleton's safe. Another original document has a handwritten note that states: "N.M cases were pulled from Project Sign files and classified (TS), 1) Corona, NM, 2) Socorro NM, 3) WSPG, NM." Explore these and other documents at:

Posted to the "Documents Obtained Between 1993-1998" section are 10 pages

comprising nine unique documents. One significant memo is dated 27 September 1947 in which Secretary of State George C. Marshall writes to his Executive secretary Carl Humelsine about the tragic consequences if the present rumors about New Mexico events are disclosed to the public. Another interesting document is a one-page fragment of a longer document containing the heading "Nature of Survey" which explains that "an analysis

has been made of the first one-hundred publications in the AFSA Unidentified Flying Object Intelligence Reports, prepared by the U.S. Army Security Service, the U.S. Naval Security Group, and the U.S. Air Force Security Service. Additional reports were reviewed which originated from respective branches intelligence departments. These reports were produced in order to establish what material of UFO intelligence is of value in relation to the New Mexico incidents and the ongoing MAJESTIC PROGRAM." Also of interest is a letter from Thomas Cantwheel referencing crashed and recovered saucers in Missouri in 1941 and Louisiana in 1942 and the subsequent reverse-engineering projects. Explore these and other documents at:

The Supporting Documents section of the website contains documents that were discovered through conventional channels but play a role in supporting the authenticity of the leaked Majestic documents. The section is broken down into three main areas: 1. Documents from the National Archives, 2. Documents from the Truman Library Archives, and 3. Documents

Obtained Through the Freedom of Information Act. Five interesting new documents comprising 11 pages have been added to these sections.

Highlights include the "National Security Action Memorandum No. 271" signed by President Kennedy requesting broader cooperation on space research with the U.S.S.R., which provides a point of authentication for a similar leaked MJ-12 document regarding cooperation with the U.S.S.R. and review of classification of all UFO intelligence files affecting national security. Also of interest is the Col. William Guild Department of Army response to Richard Hall's FOIA request, which references the "Interplanetary Phenomenon Unit" (IPU). The IPU is also mentioned in several of the leaked Majestic documents, such as the "Counter Intelligence Corps/Interplanetary Phenomenon Unit Report" of 22 July 1947.
