Permission to do so. I'd like an answer on this one myself. You may edit any way you see fit. And there should be an article in the Simi Valley local newspaper on this incident, in their archives. It made front page. Also, I believe that the Star Free Press carried an article on it. I wish I could remember the name of that weekly Simi Wednesday newspaper. Sorry, and thank you for caring enough to get answers. Let's fly with the crash first and the description of the ranch is ok. But, let's leave out the details about congressional candidate (why there, etc) as I would be quickly identified. And I am not certain my enemies aren't still out there. Since my son was murdered there, it might be wise to leave my name off this for now. As I really and truly was shot at after 1980, had a contract out on my head, and lived in 8 years of constant fear. And that's the truth before Almighty God. It's a reason I remained silent so long. Fear is a terrible thing! It can be a mind killer.

Thanks,
Diane Condon
