

HENRY AZADEHDEL

USA

Oct. 7th, 1989

Dear Tom,

It was a great pleasure having an interesting discussion with you.

As promised I am enclosing herewith some material with regards to the South African crash. Since the investigations are not over yet, and this has been a joint investigation case between me and a recently retired police officer, whose name has been mentioned in Tim Good's 'Above Top Secret', as witness to a number of sightings, Mr. Tony Dodd, and as you hopefully will appreciate, the names are altered. Once the case investigation is over we would release the names of all the characters involved in this. Tony is one of the best investigators in UK today, his experience in the Police force with regards to investigation during past 30 years is a great asset. He is the director of the YUFOS investigation currently. He is highly regarded in UFO community in UK. And me, well as a toddler in this Phenomena, I have been studying it for the best part of the past 17/18 years around the globe and all by myself alone. Despite what the others might consider to possess a wealth of data gathered, I have never published anything about my work. This study has taken me from N. America to S. America, to most parts of S.E. Asia, Middle East, Africa and eventually nine years ago arrived to Europe. During the course of the past 8 years I have been making several trips to far corners of the world, including the Solomon Islands, Western New Guinea, Papua New Guinea, Guyana, Kalimantan (Borneo) in pursuit of this hobby. Basically I am a quiet chap who does not like to make too many waves. During the past two years since I have sort of surfaced I have been in touch with some giants of ufology such as yourself trying to learn from their findings and improve what little knowledge I have.

Recent Moore's revelations has brought to my attention yet another angles involved with regards to MJ12 documents, what I consider the European Connection. This raises a number of serious questions about Mr. Good's involvement, which so far not much attention has been paid at all. I have written a piece about this which includes some serious questions, which if answered truthfully should help to some extent to cast more light on this issue. Please let me know if you know any UFO publication other than MUFON, in which one could publish this. Why not MUFON? Because Mr. Good's relation with MUFON might somehow discriminate the case. As a scientist, I am interested in the truth and not the personalities, no matter who they might be. Unfortunately, during this short period of making my name known in these circles I have noticed that what one might call the politics plays a greater role than the facts themselves. If you like myself, disrespectful of the names and the personalities are only after the truth as a true researcher then please let me know whether this written piece could be publicised for the benefit of the few who are the followers of the facts and not the names and personalities.

Whilst thanking you for your time and consideration, I wait with anticipation to your reply.

Yours Sincerely,

H. Azadehdel
H. Azadehdel

SPEECH FOR OSSETTE CONFERENCE SEPTEMBER, 1989.

Start speech with the quotes from the MOD re UFO Not coming under the Official Secrets Act. Then quote the American document. (Slide 1)
The fact that we are such close allies. Also if UFO don't come under the Official Secrets Act why is it that so many are retained under the 30 year rule.

I am Tony Dodd and my friend is Dr. Henry Azadehdel. Both Dr. Henry and myself were originally geared to speak about our own particular experiences in the UFO field, but due to information which came to us several weeks ago in relation to an alleged crashed UFO in South Africa, we have spent a considerable amount of time engaged in an in depth investigation into the information received.

Due to the complex nature of the investigation both Dr. Henry and myself will take turns to speak and will hopefully give you a picture of the sequence of events as they occurred.

You will be shown slides of certain documents which were passed to us and also of the person who passed the information. Unfortunately it has been necessary to blank out certain names and places but this has been done to protect the identity of our informant who is no longer in this country. He stated that he is a South African Air Force Intelligence Officer and would be charged with Treason in his own country should his identity be revealed. I have been corresponding with this man for a long time but was not aware of his Intelligence Connections until the last few weeks.

At this stage I would point out as stated previously, that certain omissions have been made in the talk we are about to give. It is of the utmost importance that our sources of information are totally protected for their own safety,

By protecting informants in this way we hope that other Intelligence sources will come forward and eventually the full picture of what is going on will emerge.

If When we have finished giving details of this incident there is time we will be happy to answer questions but we reserve the right not to answer if we feel that our continuing enquiries or source of information would be compromised.

The Transcript of *G. Gumb*'s first telephone Sat. 5th, 8, 89
conversation with *K. J.*, the Military Adviser in
Foreign Affairs, in South African Air Force, Hidelberg AFB (Conversation in African)

K. J. .. starts off by talking about family and his dog. and continue
K. J. I do not know anything about it other than what I've read about
Calahari. I told you I didn't want to say anything about it.
Who is *G. Gumb*? I don't know anything.

G. Gumb : Well, I know about it, because I read about it. *G. Gumb*
called me about it.

K. J. Keep it like that. I've taken two days off and the army phoned
me at 8 o'clock this morning. I went out this morning to do
some research for my daughter. I have not seen the Commander
in Hidelberg.

G. Gumb : Could you say whether they are interested?

K. J. : I don't know. They work totally different.

G. Gumb : I just want to know whether they contacted you.

K. J. : No, nobody contacted me. How do you know that they know about it?

G. Gumb : They are busy doing something, because I know.

K. J. : , you have got to take it calmly. Keep low profile, keep
it down *G. Gumb*. In the light of what you told me, it is not
for the best to go into it any further.

G. Gumb : Henry here is asking about the material you promised to
send. Have you sent the second parcel?

K. J. : Yes. (and continues to talk about his family that he is going to
visit tonight and his caravan, and says:

K. J. The only people saw the document were not showing any
sign of seriousness about it. They did not think it was
anything. (Referring to Cooper's papers given to *K. J.*)

G. Gumb : I send you more papers..

K. J. : Don't send me anything. Don't tell them anything. It causes
just complications. You won't believe what trouble they could
cause. I can not mention, but I've been talking to somebody
and he knows. He knows everything about you. They know
everything about everybody.

G. Gumb : I am shit scared about it.

K. J. : You have given your phone number. So, they are checking on you.
They are definately checking you out.

G. *Living*: There is so many complications to this incident.

K. *Living*: In the begining it was just interesting, but now, at the end, it is not anything to get involved in.

END

Transcript of the telephone conversation between *Wang* and
154 Sun. 13th, 8, 89. (Conversation in African) : (C)

Wang : Hello, *Wang*, how are you? Did you phone the base yesterday?

Wang : Yes.

Wang : Right.

Wang : *Wang* A asked me to phone. He asked me whether I knew anybody there and he asked me to contact you.

Wang : I've got nothing to do with this. I told them yesterday. If you ever use my name again. It was so foolish of you. You are putting me in a very difficult position. I told you nobody is suppose to know where I work.

Wang : So, what do they do to you then?

Wang : I am not going to talk anything further about Calahari, as far as I am concerned it does not exist.

Wang : O.K.

Wang : I can not afford to talk to you about it. I don't want you to contact *Wang* or anybody else for that matter.

Wang : I was under pressure. I am sorry to have contacted these people.

Wang : I have not got the documents that *Wang M* asked about. He thinks I have got them, I have not got the documents.

Wang : What happened to them?

Wang : Nothing.

Wang : Because they keep records of everything like this. The Commander, it must be *Wang M*, who phoned you.

Wang : No body is suppose to know where I work. That is my position. That is the first security brake you have made, because no one is suppose to know where I work. Did you tell *Wang* where I worked?

Wang : Oh no, I didn't tell him. I did not give *Wang* your name.

Wang : Because they told me if there is any further contact with you, there would be trouble. This is what Com. *Wang M* said to me yesterday.

Wang : I mean, next year I am going to work for government. I can not afford to be mixed up with anything like this.

Wang : That is fine, yes. It is not a joke anymore.

Wang : You have been in contact with Bureau of State Security?

Wang : No, you have been in touch with BOSS, because, I have now got a letter from BOSS.

Wang : I don't want to see it. Thank you very much. My number is with BOSS they know where I work, don't they? So, this is now the end. I have got nothing more to do with this case.

The Transcript of my Telephone Conversation with the Chief of
Military Intelligence in South Africa, Aug. 1989

Henry: H
General: X

H: Mr. X

X: Yah.

H: Hello, I am calling from Hawaii

X: Yes...

H: I would like to ask you about this UFO crash in Calahari.

X: You what?

H: A UFO crash in Calahari desert. (Talking rather loud)

X: I can't hear you very well, just say it again.

H: A UFO crash in Calahari desert, May 1989.

X: May 89 (Thinking about my above comments).

H: Yes.

X: Who is speaking?

H: This is Jonnathan speaking from Hawaii.

X: What is your surname?

H: Jonnathan Smith.

X: (He repeats my name, giving the impression of writing it down), O.K., so
WHAT DO YOU WANT TO KNOW?

H: I want to know where did it go eventually.

X: I can't hear you.

H: Where did it go eventually? Did it go to Wright Paterson, or you kept it in
South Africa after it crashed.

X: WHY DO YOU WANT TO KNOW?

H: Well, I've been investigating UFOs for 20 years.

X: I think you...you are talking to wrong person, where did you get my number?

H: Well, we have contacts to get numbers everywhere.

X: I CAN NOT GIVE YOU THAT INFORMATION, I'VE NOT GOT IT.

H: It crashed in May 89, and was shipped to Wright Paterson in June, am I correct?

X: (Stammering) No....n....no, I am not sure, I don't think you have got the
RIGHT information, where did you get that?

H: Well, information comes to us from all over the world.

X: What kind of crash was it? (Remember I had already told him)

H: It was an Unidentified Flying Object.

X: In the Calahari?

H: Yes.

X: 19...?

H: 1989, Botsswana.

X: Ah...Ah..h..., No, I haven't got that information. I think PERHAPS it is a
rumour.

H: I think I would be very much surprised if it was a rumour.

X: (Now trying to meddle the subject) So, what are you saying? You are sitting in Hawaii and you got that information. Where did you get that?

H: As I said, we are operating a UFO network.

X: Well....Ah...well, I can not give you ANY FURTHER INFORMATION, I do not know anything about it.

Henry Azadehdel

Te word "Lady" is a pun word

The Transcript of the Conversation between Henry Azadehdel and
Mr. [redacted] from the Office of [redacted] (OSI) in
Wright Paterson Air Force Base, Dayton, Ohio. Sept. 15th, 1989

[Conversation is
taped by me.]

Operator: OSI Office. M

M: Could I speak to Mr. [redacted] please?

Operator: Yes.

L: Mr. [redacted]. M *CSJ*

M: Mr. [redacted], good afternoon. My name is Dr. Henry. I am calling from England.

I have a case which has been passed to me with regards to UFOs. I have
a file number. I wonder if you sort of cast more light on it. It has
been a joint operation between South Africa and U.S. (Giving very brief
details) We are talking about crash retrieval here.

It was tracked by NORAD, It was crashed down in Botswana. There had been
scramble on it obviously. They had used an experimental weapon called
Thor. Subsequently was transferred to Valhalla Air Force Base, and five
personnel from Wright Paterson were invited to that base.

L: Excuse me. I have to stop you talking for a second. What is your interest,
what is your official capacity?

M: I am a doctor in physics, and I have been studying this phenomena during
past 20 years, independently on scientific grounds.

L: Yes..

M: I don't belong to any organization, any group, any color or any creed.

L: O.K., your name again..

M: My name is Dr. Henry (Spell). I left my number with you.

L: Yes...yes I have that here. As for this specific incident, I have no
information at all on it. Were you provided my name as a point of contact
to this?

M: That is correct.

L: O.K., who provided that?

M: It was the lady that I contacted.

L: O.K., Is that lady that you contacted here?

M: Yes, that is correct.

L: And... why Wright Paterson?

M: Very good question. The reason that it is Wright Paterson, is that it was
subsequently transferred on 23rd of June by two Galaxy C5s to Wright
Paterson.

L: The wreckage?

M: Yes. This information Mr. [redacted], I must be honest with you has come, without
any exaggeration from a very very reliable source in South African Air
Forces. Now, we both understand that these are supposed to be Top Secret
information. That we both appreciate.

L: South African Air Force?

H: That is right, Intelligence section.

L: O.K.

H: But the object of this inquiry, this telephone conversation is not anything, sort of wrong at all. As I said, I've been studying this phenomena. It is the scientific aspect of it that I am interested.

L: Well, I, specifically can not help you. I have no knowledge of this incident nor of the transfer of any wreckage from....eh... you know retrieval.

H: I have more information about it. I can give you the dimensions.

L: I am not sure if that even could help. You obviously understand that the problem is the ADMISSION of such THING.

H: Yes. I do understand it fully. You don't have to remind me. I am fully aware of it.

L: Do you know if I mention in fact that if THIS HAS HAPPENED, and we make feel confident that it HAS. But, having someone ADMIT to that, provide information, is something entirely different.

H: It is absolutely correct. I couldn't agree with you more.

L: Yes, but I tell you what. There are some units in Wright Paterson which I could contact and make some inquiries and leave your number and name.

H: I would be very grateful. I would give you two names which have been passed to me.

L: O.K.

H: Is it possible if I could come back to you with regards to those two names? One of the names given is..... "...." was involved. He was supervising this shipment. Second person was.....I know that works in Wright Paterson, but I have not been able to trace....., I must be honest with you.

L: Well, I see what I can do for you.

H: Well, when would be possible at all if I could contact you?

L: Well, that would be very difficult. I am leaving the area for the next week, and would be leaving the country for the couple of months. If you call my office and reference our conversation, they may be able to help you.

H: I hope this conversation would be considered confidential between you and I. If I may Mr. ^M.....

L: Well, you know, I work for the government and there is very little I can do on behalf of the government, which is confidential. If I am dealing with private citizen, I certainly need to document our conversation. I am sure that you were aware of that when you called.

H: Absolutely, I am fully aware of that. That is why I said, I have no public interest on this matter at all. My priority is the scientific aspect of it. Specially that I was told that two entities, EDEs in due course have been

retrieved. One of them died subsequently. The other one during the transport was inactive. They rejected any food which was offered to them apparently. They are classified a type of KBEs which is classic type (L:yes) what is known to the public as the greys. (L:yes) Coming from the star system Reticulum.

L: You say this is here in Wright Paterson?

H: That is right.

L: O.K., would you be satisfied to talk to him about this?

H: I know, as you said very correctly, EnII could not agree with you more. If this gentleman would be prepared, sort of, I know that a confirmation is very very difficult. I do know that. But, something in the line to give me that sort of, how can I put it? it is very delicate. I can not find the word. That, yes, this is something that the possibility exists. I know that he can not divulge information if he is sworn to the secrecy act. It is quite understanding.

L: Yes. As a physicist I can certainly appreciate your desire for knowledge.

H: That is all there is to it, and nothing else at all.

L: Yes. Then again, all I can do is to contact these people. Even if I was made aware the existence of the fact that the facts you have given me, yes there are true, I am not sure if I can even pass that back to you. You can certainly appreciate the position I am in.

H: Yes, I assure you that I understand, and I am very grateful to you.

L: But I'll do what I can for you.

H: This is something that would stay, you have my word as a gentleman, between me and you.

L: Well, again I told you. I am not going to keep anything confidential between you and I. I work for the United States Government. I'll have to document this conversation.

H: Well, from my point of view, you have my word that it wouldn't be spread anywhere. It would stay with me.

L: O.K.

H: Well Mr.  thank you very much for your time.

L: Thank you for your call.

END.

①
Transcript of conversation dated Friday 11th, 8, 89, between
G. Gurney and Maj. F. C. M., the Base Commander in
Hedelberg Military Intelligence.

G. Gurney : I am ~~G. Gurney~~ from Intelligence. I am speaking from
England. I spoke to ~~James A~~, ~~2/15/89~~ working
in Hedelberg. He knows all about this particular incident.
I worked with American Intelligence. I worked with classified
documents ~~which~~. One document I found is about South African
Air Force, concerning Calahari Desert. They picked up a UFO
or something that had crashed there. I am trying to get
hold of BOSS (Bureau Of State Security), and I have to give
this information to BOSS. Can you help me?

M. Com. ~~PL~~ : We have nothing to do with BOSS people.

G. Gurney : I did send ~~5/4/89~~ ~~2/15/89~~ all the information.

M. Com. ~~B~~ : You mean Americans know about it? I don't.

G. Gurney : The report I sent ~~2/15/89~~ was made out by South Africans.
I don't know how it got to Americans. I worked past five
years in Dayton, Ohio, and I worked with information because
they trusted me. I worked with classified information, and I
saw all the documents on South Africa. They know what is
going on, and that is why I want to get hold of BOSS.

M. Com. ~~PL~~ : I do not know where to get hold of them.

G. Gurney : I am trying to get thru to them.

M. Com. ~~PL~~ : I have got nothing to do with it. When did you send this
information to ~~2/15/89~~?

G. Gurney : I sent them when I was in U.S., sometimes earlier this year,
and I told him to sit on them, and I sent a copy to the
Military Intelligence, and I have been checked by British
Military Intelligence while I am in England. The situation is
getting hot. I don't know where I am going from here. Possibly
back to US. I apologize for my poor African language because I
have been speaking English in the past five years. ~~He~~,
he knows about Calahari Incident.

M. Com. ~~PL~~ : What do you want to know, whether they recieved the documents.

G. Gurney : Well, you never know whether the post is intercepted. I went
to Embassy and they couldn't send thru diplomatic mail.

M. Com. ~~PL~~ : But ~~2/15/89~~ won't admit that he has got the information.

G. Gurney : You can tell him that ~~G.~~ said you can talk to him.

Gurney.

M Com. *SL* : *27K* knows you, does he?

G. Young : Yes, my name is *Young G.*, he knows me.

M Com. *SL* : I am sorry, I can't help you because I don't know what to say. I don't even know who you cantalk to, therefore can not pass your phone number to anybody to talk to.

G. Young : I contacted *27K* and told him. I had BOSS's phone number, but "I lost it. That was very stupid of me. It happened.

M SL : Can *27K* contact you?

G. Young : No, it is O.K., *27K* knows where to contact me, if he needs me. He has got my number.

M Com. *SL* : I talk to *27K* and see what he has got to say about this.

G. Young : Thank you, good bye.

END

Within 24 hours our informant styling with Dr. Henry received a telephone call from the head of South African Intelligence informing him that the mission was cancelled and telling him to report back to Military Headquarters Pretoria forthwith where he would face a Court Martial.

I will now hand over to Dr. Henry who will tell you of the series of events which took place at his home and of the various telephone calls which were made and received in the next few days.

I NOW HAND OVER TO DR HENRY WHO WILL TELL YOU OF TELEPHONE CONVERSATIONS MADE BOTH TO AND FROM HIS HOME BY INTELLIGENCE SOURCES CONNECTED WITH OUR INFORMANT. INCLUDING A CONVERSATION WITH AN INTELLIGENCE OFFICER IN SOUTH AFRICA WORKING IN THE TOP SECRET DOCUMENTS AREA.
