

November 5, 1995

Thank you for the letter and the copy of the tape, which I did watch. While I understand your interest in the "Roswell Incident", I really don't have anything of any substance to say on the matter. This is not because I am under any oath of secrecy, but because I really don't know anything beyond what I have already said.

I have told Joe as much as I know, which is very little. If I should remember anything that seems significant or useful, you can rest assured that I will tell Joe.

Please give my kindest regards to your Mother and Father.

Sincerely,
