

let to us with a warning to discontinue reporting further in the strange occurrence.

That convinced us even more that there was something very strange about the whole affair and we have not been so quick to discount UFO sightings since that day'.

ONCE AGAIN, WE HAVE A GOVERNMENT 'OFFICIALLY' NOT INTERESTED IN UFOs, THREATENING A NEWSPAPER TO KEEP QUIET ABOUT THE SUBJECT.

THE SOUTH AFRICAN AFFAIR

During the first week in July 1989, I received information from a South African source to the effect that a UFO had been shot down by a South African fighter aircraft on the 7th May 1989, and that the object had crashed in the central Kalahari Desert. The object had been recovered intact, together with two live alien beings, and taken to a South African Air Force Base. The South Africans were quickly joined by American Air Force personnel who had flown out from Wright Patterson Air Force Base, America. A letter from my contact read as follows:

'South African Intelligence do not have the facilities or knowledge to pursue this matter alone. According to the base commander, it is the third space craft they have retrieved in the past ten years over the South African Continent. We were told to keep everything under wraps as it may cause panic in an orthodox religious country. They told us that they would keep us informed as to any further developments.

'I hope that this letter reaches you in one piece because if it is intercepted I will be in a great deal of trouble. Please let me know as soon as you receive it. Unfortunately we were not allowed to take cameras inside with us for obvious reasons'.

'I am sending you some government copies of the briefing notes separately. I won't be able to sign my name or address to accompany these documents in case the letter is intercepted'.

A couple of weeks later, I received a package from South Africa containing a letter and five pages of a briefing document. The first document carried the South African Air Force crest at the top of the page, and was headed:

THE JOURNAL OF UFO INVESTIGATION

'CLASSIFIED TOP SECRET - DO NOT DIVULGE'. Below this was the wording:-

'This file has been classified by D.A.F.I. information not to be divulged - Top Secret'.

The next page again bore the South African Air Force crest and the page was headed 'Classified Top Secret' - Do not divulge.

Below were the words: 'DEPARTMENT OF SPECIAL INVESTIGATIONS AND RESEARCH'. Below this were the words: 'DEPARTMENT OF AIR FORCE INTELLIGENCE (DAFI)'. The rest of the page was then laid out as follows:

DATE: 7 May 1989.
SUBJECT: Unidentified Flying Object.
CODE NAME: Black Horse.
DESTINATION: Air Force Base - Pretoria.
DESIGNATED CHANNEL: RED/TOP SECRET.
RESTRICTED ACCESS: Illuminated Nine.
PRIORITY CODE: D4.
SPECTRUM LOT: Blue.
DEFENCE COMPUTER PASS CODE - PROCEED WITH CAUTION

The following page read as follows: [NOTE - AN ASTERIX * INDICATES CHANGE OF NAME/PLACE INSERTED BY OUR RESEARCHERS]

'At 13.45 GMT on 7 May 1989 the naval frigate White Swan * radioed Cape Town to report an unidentified flying object had appeared on radar scopes, heading towards the African Continent in a North Westerly direction at a calculated speed of 5746 nautical miles per hour. Naval headquarters acknowledged and confirmed that the object was also being tracked by air-borne radar, military ground radar installations and the Civil Airport.

'The object entered South African air-space at 13.52 GMT. Radio contact was attempted with object, but all communications proved futile. As a result two armed

fighters were scrambled. A short time later the object suddenly changed course at great speed which would have been impossible for conventional aircraft to duplicate.

At 13.59 GMT, Squadron Leader Jones * the pilot of the leading fighter reported that they had radar and visual confirmation of the object. The order was given to arm and fire the experimental aircraft-mounted Thor 2 laser cannon. This was done.

Squadron Leader Jones reported that several blinding flashes emanated from the object which had started wavering whilst heading in a Northerly direction. At 14.02 it was reported that the object was decreasing altitude at a rate of 3000 feet per minute. Then at speed it dived at an angle of 25 degrees and impacted in desert terrain 80 miles North of the South African Border with Botswana, identified as the central Kalahari desert. Squadron leader Jones was instructed to circle the area until a retrieval team arrived. A team of Air Force Intelligence Officers, together with medical and technical staff were promptly taken to the area of impact for investigation and retrieval. The findings were as follows:

- 1) A crater of 150 metres in diameter and 12 metres in depth.
- 2) A silver coloured disc shaped object 45 degrees embedded inside of crater.
- 3) Around the object sand and rocks were fused together by the intense heat.
- 4) An intense magnetic and radioactive environment around the object resulted in electronic failure in air force equipment.
- 5) The object was eventually moved to an air force base for further investigation.
- 6) The terrain of impact was filled with sand and rubble to disguise all evidence of the event having taken place.

PAGE THREE (CRAFT SPECIFICATIONS)

The following are specifications as indicated by preliminary investigation at the Air Force Base.

TYPE OF CRAFT: Unknown - Suspected Extraterrestrial.

ORIGIN: Unknown - Suspected Extraterrestrial.

IDENTIFIABLE MARKINGS: None - Curious insignia forged into metal on side of craft.

DIMENSIONS:

Length - 20 Yards approx.

Height - 9.5 Yards approx.

Weight - 50,000 kilograms approx.

MATERIAL OF CONSTRUCTION: Unknown - Pending further laboratory results. Outer surface of object flawless, polished, smooth silver colour. No visible seams noted inside or on outer surface of craft.

Perimeter showed 12 unevenly spaced, flush with outer surface oval shaped portholes.

SOURCE OF PROPULSION: Unknown - Pending laboratory results.

NOTES:

A hydraulic type landing gear was fully deployed suggesting that electronic malfunction had caused the object to crash. This may have been due to the Thor 2 laser cannon being fired at the craft.

While the investigation team observed the object at the Air Force Base a loud sound was heard. It was then noted that a hatch or entrance on the lower side of the craft had opened slightly and appeared to be stuck. This opening was later forced with the use of hydraulic pressure equipment.

PAGE FOUR

a) Two humanoid entities in tight fitting grey suit emerged and were promptly taken to a make shift medical centre.

b) Various objects inside the craft were taken for analysis. Results still pending.

c) The craft has been placed in a sterile environment.

MEDICAL REPORT ON HUMANOID ENTITIES

ORIGIN: Unknown - Suspected extraterrestrial.

HEIGHT: 4 - 4.5 ft.

COMPLEXION: Greyish blue - skin texture smooth, extreme resilient.

HAIR: Totally devoid of any bodily hair.

HEAD: Oversize in relation to human proportions. Raised cranium with dark blue markings extended around head.

FACE: Prominent cheek bones.

EYES: Large and slanted upwards towards side of face. Pupils seen.

NOSE: Small consisting of two nostrils.

MOUTH: Small slit devoid of lips.

JAW: Small in relation to human proportions.

EARS: None observed.

NECK: Very thin in relation to human proportions.

BODY/ARMS: Long and thin reaching just above knees.

HANDS: Consisting of 3 digits, webbed, claw like nails.

TORSO: Chest and abdomen covered in scaley ribbed skin.

HIPS: Small narrow.

LEGS: Short and thin.

ITALS: No exterior sexual organs.

EET: Consisting of three toes, no nails and webbed.

NOTES: Due to aggressive nature of humanoids, no samples of blood or tissue could be taken. (One humanoid attacked Doctor causing deep scratching on face and chest) When offered various foods, refused to eat.

Method of communication not known - suspected telepathic.

Humanoids are being kept in detention at level 6 of Air Force Base.

One way passage has been requested for both humanoids to Wright Patterson Air Force Base USA for more advanced investigation and research.

PAGE FIVE (CONCLUSIONS)

A) No conclusion has been reached. Awaiting results of investigations.

B) The object and humanoids will be moved to Wright Patterson AFB for more advanced investigation and research.

C) Date of passage - 23 June 1989.

NOTES: Conclusion remains open ended.

This file contains initial findings of preliminary report and further details are expected after completion of investigations in South Africa and Wright Patterson AFB USA.

A DRAWING OF THE HUMANIDS AND THE ALIEN CRAFT WERE ATTACHED TO THE MAIN REPORT.

AT THIS STAGE WE WERE INFORMED THAT THE OBJECT HAD ALSO BEEN TRACKED BY NORAD (American Air Defence Radar) AS IT HAD ENTERED THE ATMOSPHERE.

At a later date our informant met with Dr Henry Azadehdel and myself in England and supplied us with a great deal of information about the crash, including names of American and South African Officers who were involved in the incident, and those of civilian personnel, amongst them scientists from both countries.

He also wrote and signed the following statement:

"I, XXXXXXXXXXXX am a member of the South African Air Force Intelligence, Special Investigation Department, my home is XXXXXXXXXXXX, South Africa. I hereby swear that the file, code-name Black Horse which is attached contains information which I give of my own free will and without duress. Although I have signed five documents of the Official Secrets Act in South Africa on the 7th May, 1989 and the 29th July 1989, in which clear warnings were given to me with regards to the consequences for revealing information relevant to this top secret operation, and that any disclosure of this information would be considered an act of treason against South Africa. I decided to disclose this information to the

public in the firm belief that not disclosing it would be an act of treason to the rest of mankind.

"This file contains information with regards to my own personal involvement as part of a recovery team of two three South African Intelligence and security personnel who were involved in a covert Top Secret operation with regard to the recovery of a crashed Unidentified Flying Object and live Alien Entities from the Kalahari Desert on the 7th May 1989.

"This file also contains details of my later involvement as part of a joint operational team of American Military Intelligence Personnel from Wright Patterson Air Force Base numbering seven, and five South African Air Force Intelligence personnel who assisted in the recovery and transportation of the object to XXXXXXXXXXXX, Air Force Base, for the examination, study and dispatch of the object and two alien entities to Wright Patterson Air Force Base, Dayton, Ohio, USA. on the 23rd June 1989.

The facts given in this file as to the solution to the problem are absolutely true.

I am ready and willing to take any lie detector test which is arranged by any reputable person, and which is conducted by a qualified, neutral person who is not and has never been employed by, or connected with Government in any capacity.

A file was compiled of questions and answers given by informant which when completed ran to nearly fifty pages. Every detail of the incident was recorded and mammoth investigation into this incident was started by Dr Henry and myself.

At this time telephone contact was made with another serving South African Air Force Intelligence Officer with very high security clearance. Conversations made with this person revealed that he was aware of the UFO crash incident and that he had access to four 8" x 10" official black and white photographs of the aliens and the craft and also a fifty page telex message sent from Wright Patterson Air Force Base to South Africa giving instructions regarding the recovery and handling of the incident.

He said that he was willing to let us have copies of photographs and telex, but would have to do it in his own way because he would be taking a terrible risk. He asked for certain information from us in exchange for the photographs. Meanwhile, a telephone call was made to XXXXXXXXXXXX, Air Force Base, South Africa, requesting to speak to Squadron Leader Jones. The call was put through and the following conversation took place:

QUEST: "Is that Squadron Leader Jones."

REPLY: "Yes."

Dr Henry: "This is General Grant speaking from Wright Patterson, America."

Dr Henry: "Yes Sir."

Dr Henry: "Listen Squadron Leader, I am confused, I have the Black Horse file in front of me and it doesn't say how many times you fired at the object."

Dr Henry: "Who did you say was speaking sir."

Dr Henry: "This is General Grant from Wright Patterson, Squadron Leader it's a straight forward question, how many times did you fire at the darn thing."

Dr Henry: "I fired once sir, could you hang on a second while I go onto another telephone."

Dr Henry: "That won't be necessary Squadron Leader, you have answered my question."

MIRAGE IN ATTACK MODE

Dr Henry: "Contact was then made with NORAD in America and access was gained to the tracking department where a conversation was held with the officer in charge [This conversation was also recorded]. Computer records were checked and it was revealed that an object was tracked moving through the atmosphere moving towards the African continent around the time in which we were interested. We were unable to give the point where the object came from. When asked what the object was they stated that they did not know but assumed that it could have been a satellite."

Dr Henry: "Wright Patterson Air Force base was then contacted on a telephone line to the Office of Scientific Intelligence. Contact was made with a person who had been sent to us as being present in South Africa at the time of the UFO [This conversation was recorded]. It was pointed out to him that we were aware of the object in South Africa and of his presence at the time. He was obviously shaken and took some time to answer. He then stated that he was not involved in the matter and refused to speak any further. His office was contacted again the next day by telephone when another person answered the phone. When we asked to speak with the same man we had spoken to the previous day, we were told that he had 'gone away on an assignment for several days'."

During this period, our informant was staying with Dr Henry and the following day after the calls to Wright Patterson, a call was received at his home. It came from South Africa and the caller asked to speak to our informant. He was put on the line and the person at the other end was heard shouting.

When the call was finished our informant was visibly shaken and very frightened. He told Dr Henry that the caller had been General XXXXXXXXXXXX of South African Intelligence who had stated that the authorities were aware that he had passed information to us. He had been ordered back to South Africa, to report directly to the office of the General, where he would face very serious consequences.

Meanwhile, our contacts in the American Military established that a state of alert called 'Defence Conditions' had been created in a specific section of Wright Patterson Air Force Base, Dayton, Ohio, on the date that the UFO was due to arrive. It appears that these alerts are always kept at low key to avoid the usual press curiosity.

During this time, our informant had produced a Central Defence Intelligence pass card bearing his photograph which gave him access to Wright Patterson Air Force Base. He also produced a NASA identification card which also gave him access to the base.

Throughout our enquiries, many telephone calls were received at the home of Dr Henry from South African Intelligence and from the South African Embassy. Some calls were received in the middle of the night. Many conversations took place in Afrikaans, the South Africa language, these were recorded. At a later date the tape were interpreted, they confirmed that this matter was indeed causing a great deal of trouble in South Africa. Our source who had promised the photographs and tele message also telephoned and spoke in Afrikaans to our contact staying with Dr Henry, this was also recorded.

In that conversation, he states that he is frightened because the authorities are aware of what has been going on. He said that they were aware of all the person involved and he had been taken in front of his command and warned of the consequences of what had been taken place. He also stated that nobody outside the Security Services were supposed to know where he worked and that our source had let him down badly by leaking this information.

Many further telephone calls were made to both South Africa and the United States and one call made to the Office of Special Investigation got the following response after Dr Henry asked for information regarding the incident in South Africa:

OSI: "I appreciate your interest in this matter, but I have no knowledge of this particular incident. I can neither confirm or deny that it happened. There are so many places on here who I can contact and find out, but you have to realise Doctor, that I work for the Military and even if this incident did take place I wouldn't be able to admit it to you."

Dr Henry: "I have received this information from high ranking South African Intelligence sources. My only interest is scientific. I have been working on this subject for many years."

OSI: "I appreciate what you are saying and can understand your interest, but you have got to realise the impact of this information."

ALIEN BEINGS HELD AT SECRET AFB IN SOUTH AFRICA

At 13H45 GHT on 7 May 1989 the naval frigate *radioed Cape Town naval headquarters to report an unidentified flying object that appeared on radar scopes, heading towards the African continent in a north westerly direction at a calculated speed of 57 nautical miles per hour. Naval headquarters acknowledged and confirmed that object was also tracked by air-borne radar, military ground radar installations and D.F. Mal. international airport at Cape Town.*

The object entered South African air space at 13H52 GHT. Radio contact was attempted with object, but all communications to object proved futile. Valhalla air force base notified and two armed Mirage F1D fighters were scrambled. The object suddenly changed course at great speed which would be impossible for military aircraft to duplicate.

At 13H59 GHT squadron leader *reported that they had radar and visual confirmation of the object. The order was given to arm and fire the experimental aircraft mounted thor 2 laser canon at object. This was done.*

Squadron leader *reported that several blinding flashes emanated from the object. The object started wavering whilst still heading in a northerly direction. 14H02 it was reported that the object was decreasing altitude at a rate of 3000 feet per minute. Then at great speed it dived at an angle of 25 degrees and impacted in desert terrain 80km north of South African border with Botswana, identified as the Central Kalahari Desert. Squadron leader was instructed to circle the area until retrieval of the object was complete. A team of airforce intelligence officers, together with medical and technical staff were promptly taken to area of impact for investigation and retrieval.*

...THE PHOTOGRAPH TAKEN ONLY TAKES AWAY FROM THE INFAMOUS BUILDING 18 AT WHICH
 WRIGHT-PATTERSON AIR FORCE BASE IN OHIO, USA, IS THOUGHT TO HAVE HOUSED AT LEAST THREE RECOVERED
 IDENTIFIED FLYING OBJECTS - INCLUDING, THAT 'DOWNED' BY THE SOUTH AFRICAN AIR FORCE.

Building 18 at Wright-Patterson Air Force Base.

DAVID LANGRISH

that this would have on the public if I confirmed your story. The Military can not confirm or otherwise this type of information." *

A call was later made to a Doctor in South Africa who was known to have been present at the retrieval.

Dr Henry: "I understand you have been involved with UFOs for some years."

REPLY: "Yes, but I retired two years ago."

Dr Henry: "I understand that you were present at the recovery of the UFO which crashed in the Kalahari desert earlier this year?"

REPLY: "I can't speak - I am due on television shortly."

[THE TELEPHONE WAS THEN PUT DOWN] * RECORDED

Our chief contact in England - and his wife, have sworn on the lives of their young children that the facts relating to the incident are true. And after the reports were made by the South African authorities towards our source, we contacted the London embassy and warned them that if any harm should befall our contact - or his family, we would release information given to us which would cause their government severe embarrassment. We were informed that our source was not an intelligence officer and that they had his military record actually on the desk in front of them - (how convenient).

We asked how was it possible that a high ranking military officer had telephoned our source at the home of Dr Henry and threatened him? We also informed [them] that we had recorded all the conversations and gave them the names of the officers concerned... INCLUDING THE GENERAL IN CHARGE OF SOUTH AFRICAN INTELLIGENCE.

We informed the [them] that our contact had also telephoned and spoken to these people from the home of Henry (which were also recorded). They were unable to answer these questions, but stated they would look into the matter [A person would have to be very naive to expect the South African Embassy to admit that our source was an intelligence officer]. There is of course also the possibility that our source is not an intelligence officer. That does not alter the fact that our prime source of information was... and still is a serving military intelligence officer - with a very high security clearance.

THIS IS TO OUR CERTAIN KNOWLEDGE AND THE MAJOR REASON WE CANNOT REVEAL A FURTHER ABUNDANCE OF INFORMATION THIS STAGE OF OUR RESEARCHES. WE ARE NOT PREPARED TO COMPROMISE THIS MAN'S IDENTITY, REGARDLESS OF WHAT ARMCHAIR CRITICS SAY.

Our current information from a South Africa contact revealed: "There is absolute hell let loose here at the moment."

I REPEAT, WE DO NOT KNOW THE FULL STORY AT THIS TIME. AM PASSING THE FACTS TO YOU AS WE RECEIVED THEM. WHAT ARE PREPARED TO BELIEVE OR NOT, IS A MATTER FOR YOUR CONSCIENCE. WE ARE STILL WORKING ON THIS CASE AND WE ASK ANY PERSON INCLUDING INTELLIGENCE SOURCES (WHO KNOW READ THIS MAGAZINE) WHO COULD ASSIST, TO CONTACT OUR ORGANISATION, IN TOTAL CONFIDENCE.

IF THE CIRCUMSTANCES REPRESENT A HOAX, I CAN ONLY SAY THAT A GREAT MANY PEOPLE ARE/WERE INVOLVED, INCLUDING INTELLIGENCE SERVICES.

COPYRIGHT: QUEST INTERNATIONAL PUBLICATIONS LTD 1989

Tony Dodd and Dr Henry Azadehdal have worked tirelessly on this case over the last four months and are to be commended for their efforts in attempting to discover the facts surrounding one of two possible scenarios:-

...this is by far the largest disinformation exercise mounted by the intelligence services of at least three nations, or it is the best evidence to date that a ... has crashed, and been retrieved.

There are unquestionably flaws to be found, not least in the documents themselves. There are basic grammar errors, but not many. The S.A.A.F. crest somehow doesn't ring true, and both Mark Birdsall and I addressed ... and other points to the South African source when ... for the first time.

... simply pointed out that these were the documents and ... given to him, and didn't elaborate.

... identity badges which are alleged to emanate from the Department of Defence and N.A.S.A. look the part, but as ... Good pointed out at Conference 89, they too have

... S.A. use the term 'Aeronautics' - the badge had 'Aeronautic'. Robin Lindsey, who travelled from ... borough to attend Conference, noted that the name ... had been spelt 'Calahari' on the briefing ... itself.

... as can be ascertained, no-one in the West is aware ... Two laser cannon, and there are doubts over the ... craft configuration type mentioned which is alleged to ... shot down the UFO. My own research into the frigate ... first picked up the UFO on radar also threw up ... lies.

... elements of the case, very much bordering on the ... tive, have been addressed by Tony Dodd and Dr Henry. ... assure me, that through intelligence sources, such a ... weapon does exist, but that it uses a different ... of attack to that associated with a conventional ...

... frigate in question, also exists, but is highly ... et and kept out of the public eye by the South ... ican Naval forces.

... much for the negative sides to this event.

... don't envy either of our researchers in the ensuing ... uths, because a number of UFO organisations appear to ... taken a stand on this case, and begun to label it a ... x. Tony Dodd and Dr Henry cannot reveal all the ... dence to hand at this moment in time because to do so ... ould detract from the on-going investigation, and

compromise security sources who have co-operated with them.

Let us therefore accept, that for the time being at least, the South African case is likely to receive a mixed reaction from the UFO community world-wide. Let us also however, accept the premise that there is no smoke without fire.

At the outset of this remarkable enquiry, I placed a telephone call to the South African Embassy, and was given details about one of the sources of our information. It was made clear to me that they didn't place much credence to his allegations, but call it a slip of the tongue or whatever, I was told down the phone that he had the military file of that same person on the desk in front of him.

The 'Wales on Sunday' newspaper are reported to have been told by the South African Embassy that one possible source was a 'con-man' - but then one would expect such a comment. What they don't tell us, is that the principal sources of our information resides in South Africa and Israel, and have never travelled to the United Kingdom to impart information on the case.

And then, there are the remarkable telephone conversations with key figures involved in this affair. They tell even the most biased figures that something vitally important has taken place. The recordings are all the more remarkable when one considers that it is extremely unlikely that senior heads of the intelligence community in South Africa would go along with the action of a 'con-man', without regard to their own position.

We also have the telling documents prepared by official at Wright Patterson which were given to our UK source so that it would appear he had been working for the Americans during the last several years. A history of completely false period of work at numerous establishments had been given to him, a unique 'cover' for any enquiring minds who may challenge him once in the States.

There are also the names, and ranks of numerous officials and civilians that has been passed to our researchers. I ask you, given that we have taped conversations with several of these who have confirmed their knowledge of the case, would it be prudent at this stage to reveal all we know?

Finally, there is the other telling supportive evidence of a major event taking place in South Africa from completely independent sources. One week prior to Conference 89, Harry Harris spoke with Tony Dodd and asked him to confirm dates of a UFO crash in South Africa which had been reported to him by an Israeli intelligence source. The dates of the crash and passage of the UFO at Wright Patterson were identical - it was the first time

Harry had spoken with Tony on the matter, and until seeing press releases of Conference in the local media, containing snippets of news about a South African incident, he had no other knowledge on the case.

More interestingly, when we travelled to Frankfurt in September, one leading American researcher confirmed to Tony and myself that an intelligence source had pointed him in the direction of a major UFO event having taken place in South Africa, and that the American government were up to their necks in shady dealings with Pretoria.

Believe me when I say, that both Tony Dodd and Dr Henry have a fantastic mountain of evidence on this case which has not even been touched upon at public meeting or in the media. To call some of that evidence 'sensitive' would be a vast understatement.

I would say that at this moment in time, one can rule out a hoax, and most respected UFO researchers on both sides of the Atlantic, who have been privy to much of the data, share that opinion. Do not however, rule out

disinformation, because there are numerous secret agencies involved. Whenever you have dealings between United States, Israel and South Africa, you must act with caution, and the political implications of what has been uncovered thus far are enormous.

Do not at the same time, dismiss the UFO crash landings and retrieval as mere figments of one man's imagination for that is simply not the case either, the facts are there are numerous agencies and real people involved here.

So it is to Tony Dodd and Dr Henry that we look and turn to for further revelations on this encounter, and other important and exciting developments that have arisen since this case first evolved. Make no mistake about it, real progress is being made, both at home and abroad, and some of the revelations we hope to bring to you in QUEST INTERNATIONAL, will be worth waiting for.
