Spread the word. If this event is for real it could be a good media event.

Mark

Steve, FYI

in case you didn't know about it...
I'll look into attending, possibly.

Debbie

You Are Invited to Attend a Symposium
at The George Washington University

Interstellar Travel and Unidentified Aerial Phenomena:
Science Fiction or Science Fact?

October 22, 2002

Dear Friend:

We would like to invite you to attend a symposium exploring the potential for interstellar travel and the evidence of unidentified aerial phenomena, sometimes referred to as UFOs. The symposium will be hosted by The George Washington University in Washington, D.C. on November 8, 2002 from 9:00 AM to 1:00 PM and will take place in the Continental Ballroom on the third floor of George Washington University's Marvin Center. The Marvin Center is located at 800 21st

*File
Spelling*

Street between H and I streets. It is our hope that this symposium, which is sponsored by Sci Fi Channel, will provide attendees with a scientific understanding of how interstellar travel might be possible and highlight the need for a thorough scientific investigation of unidentified aerial phenomena.

The speakers are: Dr. Michio Kaku, professor of theoretical physics at the City College at the City University of New York; Dr. Richard Henry, professor of astrophysics at Johns Hopkins University; Dr. Peter Sturrock, emeritus professor of applied physics at Stanford; Dr. Jacques Vallee, astrophysicist and computer scientist, now in private sector; Dr. Bernard Haisch, Director for the California Institute for Physics and Astrophysics; Ted Roe, Executive Director of the National Aviation Reporting Center for Anomalous Phenomena; and John Callahan, former Division Chief of Accidents and Investigations for the FAA.

Following a brief welcome from Dr. Donald Lehman, Vice President for Academic Affairs of The George Washington University each speaker will make a presentation regarding their area of expertise. Following the presentations, the moderator, Ray Suarez, senior correspondent with The Newshour with Jim Lehrer with will pose questions to the speakers. We will then provide an opportunity for a general question and answer session for members of the press and the public.

The symposium is free of charge. However, seating is limited and pre-registration is required. Please call Cynthia Deteman at (202) 879-9309 by November 1st to RSVP for the event. We look forward to hearing from you soon.

Sincerely,

Ed Rothschild
Principal
