Yes, it's disturbing and we know it's coming- the [REDACTED] mutilation / abduction evil grey and reptilian ET scenario was concocted in the late 50s/ and 60s- All designed for the false flag "Disclosure" - re-read my paper written a couple of decades ago: When Disclosure Serves Secrecy. (Its in my first book and on our website- but nobody reads anymore...)

The unfunded hobbyist UFO subculture has easily be overrun by the pros in the disinformation wars in the intel community- Just as Werner Von Braun predicted. It is no surprise, but nevertheless disturbing.

If you think 911 and its aftermath was horrible, stay turned. There are virtually NO sane , restrained voices out there countering the evil alien, abduction and mutilation nexus of UFOlogy - Unless more calm and saner minds prevail, we are headed for what Gen. Douglas McArthur predicted (and wanted, as do all war- mongers and military industrial war profiteers): WWII will be interplanetary (or staged as such). UFOlogist take events such as staging mutilations and abductions as proof of the evil aliens we simply must go to war with! Such childish nonsense!- but every human war is based on childish nonsense.

Remember : those who benefit from war, and not universal peace, have a prevailing interest in finding vectors ([REDACTED] et al) -however unwitting- to carry the message and get the public convinced we must FIGHT. The movie Independence Day was in reality a preview of such an event: Unite Humanity around a military junta by fighting the Aliens ("Let's kick Alien Butt" Will smith yelled to the hoorays of thousands).

Perhaps now you understand why I did not appreciate sitting with the purveyors of such us vs them jingoism at the Citizen's Hearings....

Over 20 years ago I warned of the dangers of taking seemingly convincing events and evidence (mutilations , abductions etc) at face value. I have personally met with numerous operatives who have , in fact stage-crafted the mutilations and abductions and know for a fact that while real contact occurs, the false flag phenomenon has overrun the real contact as it is reported in the UFO alt. media world.

Humans are easily given to fear, hate and panic. It is in our limbic system. The pros in the intel world know how to exploit it- witness 911 and it's aftermath!

This is the big one, 50 +years in the planning. There is the thinnest line of sane people trying to prevent it. We can count them one one hand...

In my briefing, I personally warned [REDACTED], Director of the DIA (Defense Intelligence Agency) of these scenarios. He confided that his dad knew of such a conspiracy in the 1960's and ate his gun. The general asked me why I had not eaten mine....It was poignant , shocking and moving.

Well, when the day is done I hope and pray Peace Universal will prevail- but I am prepared that, as Dr. Bearden said " The fools may blow it yet!"

Steven,

You need to listen to the interview. Delonge is pushing ET/Human war straight from the horses mouth, meaning a lot of unnamed "very high up" generals, etc.

Knapp did not challenge him.

This could be the biggest disinformation op since the end of the Cold War.

You've known him for 20+ years. Please let me know what you think.

Have not heard the interview- If it involves [REDACTED] et al, well watch out.

Steven,

I finally listened to [REDACTED] four hour interview with George Knapp from March 28 and am somewhat at a loss for words.

I was getting one red flag after another.

Do you have a take on what the hell is going on here?

Thanks.
