

NOTE: OBJECT FLEW AT TIPPED 45° ANGLE  
WITH SIDE WITH WHITE LIGHT TIPPED  
FORWARD AND MOVING FORWARD.

SILVER 4" BENT CABLES  
IN INVERTED "U" SHAPE  
STUCK IN AND AROUND TOP

Box-Like Protrusions-----  
(Exact number/location  
uncertain/3-4 per side)

RED  
FLASHING  
LIGHT

STEADY BRIGHT YELLOWISH  
WHITE LIGHT

EDGE/RIM \*\*\*

Color of object-surface,  
protrusions, legs  
"silverish-red".

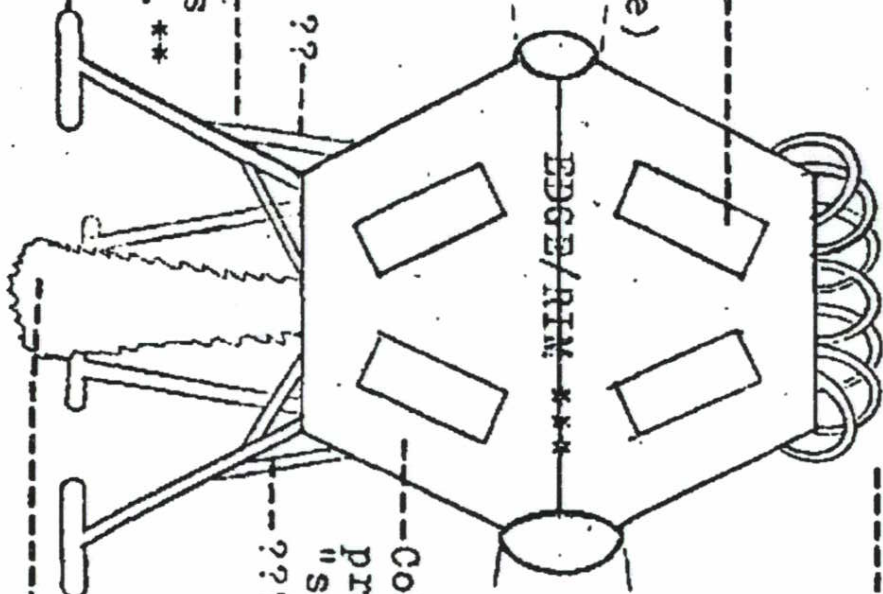

Four 4" in  
diameter pipe-like legs  
with supporting struts.\*\*  
(???)

Orangish-Red pad(s)-----  
(Questionable/Got  
impression that this  
color=a reflection)

Alternately changing color  
10-foot exhaust(Purple,  
Blue, Orange, Red & White)

\*\*--Struts questionable-fleeting impression only.

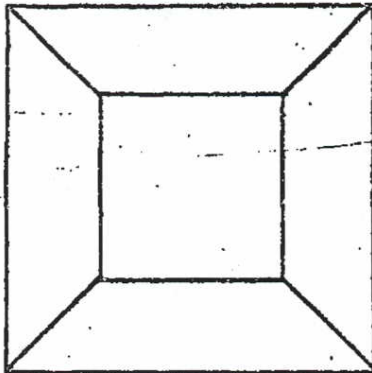

\*\*\*--Sides sloped outward to form edge/rim.

UFO CONFIGURATION (From Composite Testimony)

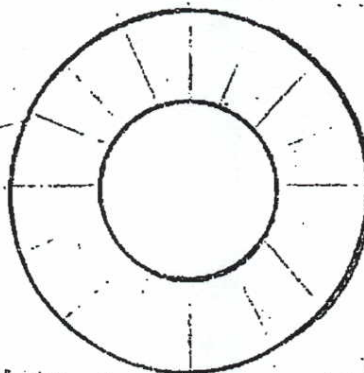

ESTIMATED TOP/BOTTOM

4 WITNESSES REPORTED  
A "DECAGON" SHAPE

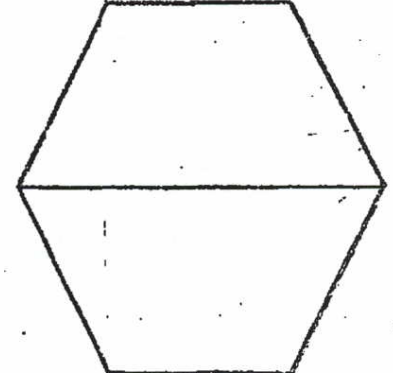

ANOTHER POSSIBILITY?

(A TOP, FLAT ON  
TOP & BOTTOM)

(Chairman-suggestion  
due to fact that a  
cone would present  
a similar "side-  
view". Witnesses  
reported that the  
object was decagon  
in-shape)

DESCRIPTION OF A "SIDE"  
BY 4-WITNESSES

NOTE: OBJECT FLEW AT TIPPED 45° ANGLE  
WITH SIDE WITH WHITE LIGHT TIPPED  
FORWARD AND MOVING FORWARD.

## NICAP MASSACHUSETTS INVESTIGATING COMMITTEE

29 May 1972

SUBJECT: NICAP MASS UFO REPORT #72-5

DATE/TIME: 13 May 1972/9:50 P.M. E.D.T.

LOCATION: Sno-Shoe Hill, Route #3B, Canterbury, New Hampshire

I. SIGHTING BACKGROUND

On the evening of 14 May 1972(Sunday), I received a telephone call from associate UFO investigator, [REDACTED] who resides at [REDACTED]

[REDACTED] informed me that at 5:24 P.M. E.D.T., he had received a phone call from a Mr. [REDACTED] who is employed at the USAF-sponsored Satellite-Tracking Station, New Boston, N.H. (From time-to-time, Mr. [REDACTED] has alerted [REDACTED] to UFO sightings reported to the Tracking Station.) He gave [REDACTED] the name and telephone number of a [REDACTED] of Canterbury, N.H., who had reported a UFO to the Tracking Station on the previous night, i.e., Saturday, 13 May 1972. [REDACTED], in turn, then conducted a telephone interview with [REDACTED] to obtain basic details on the incident, before alerting me for possible on-site investigation of the incident.

[REDACTED] told [REDACTED] that his two sons along with two friends were sleeping outdoors in a partially-constructed chicken-coop. He had left them only 10 minutes when they were frightened by a strange-shaped buzzing object with a fiery exhaust which approached the chicken coop and shined a very bright light on them. It had four strut-like legs with round pads, rectangular protrusions and silver cable-like protrusions on top. The object's shape was a ~~decagon~~ <sup>decahedron</sup>.

The boys alerted [REDACTED] and his wife who left their T.V. program to see what it was all about. They went outside in time to see and hear something flying over a nearby swamp which they thought must be a helicopter although it did not sound like a helicopter. The boys were adamant that it was not a helicopter so he separated the two older boys and asked them to draw a rough sketch of what they saw. He was surprised to see that both drawings were consistent and of an unconventional craft. He reported the sighting to the
