 Subject: I may have Jimmy Carter's phone number

Hi John:

You wrote @ UFOFacts today:

"However, Stanfield as well as Jimmy were never cleared for any information on UFO/ET matters and blatantly refused access. I know all three (Carter, Turner, and Sheehan) personally and hardly see any conflicting statements arising."

A little more than a year ago, [REDACTED] copied me on a message which included what may be Jimmy Carter's home phone number:

[REDACTED] in Americus, GA: [REDACTED]

I wonder what would happen if you tried calling it; possibly there may be voice mail, and if it is Carter, he might call you back? I know this is an extreme long-shot, but, if it is his phone number, and he does call you back to speak to you, suppose you were to raise the matter of how important UFO disclosure is for the future of humanity with him, and how important and necessary it would be for the respected former president, and recent Nobel Peace Prize winner, to make a major public statement on it, and thereby help to end the cover-up in the interest of world peace, as well as for many other important related reasons.

YES, MS. C., I have the upcoming guest appearance at the top of my
thaaaangs-to-do list. Thanks for this chance to confirm, and I await
your phone call Sunday night. Carter's gatekeepers apparently have
decided to shield him from the UFOlogy spotlight, alas. -- OO
