Emily,

Yes I really did! It took careful, meticulous and aggressive maneuvering but we pulled it off. He talks briefly about his UFO sighting and then the fact that he looked into it during his presidency and that there were a lot of questions and a lot of different answers.

He saw the camera after the first part and then panics for a second but then proceeded to tell us a bit more. The secret service were swarming like flies and I was ushered out of the building but I got the fucking thing on camera!!!!!!!!!!

I also got the impression that he would love to come out with his entire experience but that his hands were tied.

Any way this was a major score because I have spoken with every UFO nut in the field and no one had ever actually seen him on camera saying this. And now we have it!!!!

Shall we go for Clinton?

All the best
