[REDACTED],

Do you know anything about [REDACTED] who works at National Aerospace Solutions? He was the Director of Operations for the Air Force Material Command at Wright-Paterson AFB. The AFMC once published a joke article about aliens in their magazine. [1]

The Bechtel family are from Atherton which is next to Stanford. They own NAS which runs the billion-dollar Arnold Engineering Development Complex at Arnold AFB.

I was with [REDACTED] wife a few weeks ago. She's also friends with [REDACTED], a billionaire from [REDACTED] who started [REDACTED].

Despite [REDACTED]. My personal opinion is that this lady talking to [REDACTED] is being deceived, either by herself or some infinite intelligence. The sponsor [REDACTED] references is [REDACTED], I think, but all the research Kit is describing is happening at the Nolan Lab. Kit and Nolan are true believers, willing to bend to the Intelligence Community for access to information they are not cleared for.

Regarding the UFO enigma, if you reduce it to basic fundamentals, you are left with either higher intelligent beings cooperating with the US Government or trying to elicit some reaction.

I agree with Jacque Valles, that deception is a force of nature. Perhaps some elite group knows a basic secret of reality, like suppose there is a lower and higher dimensional world.

A Chabad girl is running for City Council in SF and [REDACTED] wife seemed interested in helpint. I also have a billionaire who is a big Chabad supporter and owns a small military related company.

Perhaps some of my friends can get answers about [REDACTED] and the NY Times. I will also ask [REDACTED]ck, who is good friends with [REDACTED], editor of the NY Times. I was with [REDACTED] last month.

I have my own theories but I'd like to know the truth.
