Psi Applications Greetings #1 of 2

Steve,

It was great meeting with you also in D.H.S. I am enlightened by you and want to share a few things.

Many good contacts have been made at the Skywatch International Conference. These are of great benefit to the common goals we share.

I have personally met with [REDACTED] and top aides in Skywatch discussing mutual agendas/goals etc... I regret however, that [REDACTED] was not in attendance due to his battle with cancer. I understand it is expected this will soon come to an end within the next two weeks. May he rest in peace thereafter.

Met for a private lunch with [REDACTED] and discussed mutual agendas/plans and goals. She arranged for Major Dean to meet with me as

she expressed extreme interest in my concepts, and research/implications on the Galactic Federation/UN investigation.

Major

Dean is a beautiful man [REDACTED], it was very enlightening and inspiring.

They send their regards and expressed the hope of us all being able to

work more mutually in harmony with each other. I have spoken highly of

All CSEI sensitive procedures/information kept in confidence of course.

Also, the entire 'Phoenix Lights' story was video taped by me with eyewitness, Village Labs, researchers, & Council Member Francis Barwoods

- testimonies/accounts, computer data analysis, investigative results, video footage etc... The material I have from this is conclusive in rebutting coverup claims regarding flares etc..and indeed shows one of the most predominant and significant events to have occurred in the U.S. since the flyover above the White House back in the 50's. It is truly amazing to see how well this was concealed from the general public and media despite thousands of witnesses and vivid documentation. I've got news for you though----that is about to change on this one. The most astonishing, verified, and significant factor in all of this is your involvement, timing, and claims on this. It is truly an amazing set of circumstances. I believe within its potential recreation, are the keys to sure fire disclosure, recognition, and open minded observation of your mission and CSETI protocols.

Also 3 key military contacts were made with key evidence and testimony made publicly. One whom would be most valuable in your pool has expressed interest and would benefit from the semi-protective, legal umbrella you have set up. His name is (Ret) MSgt [REDACTED] whom is revealing what he claims was his involvement at the highest levels in 'Operation Bluefly and UFO Crash Recoveries'. Let me know if you are interested in this and I will hook him up with you. You may already know of him, if not, he certainly seems forward, strong, and full of information which could greatly benefit your operation.

Steve -I know this is getting long however there is a few more things I need to share, so I shall continue in another email for downloading ease.
