2. SYNOPSIS OF PREVIOUS INVESTIGATION:

None

3. PRESENT INVESTIGATION:

In approximately January 1948, three (3) or four (4) lectures had been given at the DARMSTADT (L50/M64) Internment Camp, on the Subjects of "Flying Saucers" and German "V2" rockets, which had allegedly been under construction by Germany, during the war on the Islands of USEDOM (M54/L10) and WOLLIN (M54/U34). The person giving these lectures had allegedly worked on both of the ^{above} fore-mentioned projects and had discussed and explained fully the various formulae and technical points of both of these projects.

4. These lectures were attended by approximately fifty (50) persons who were allegedly carefully screened out of the one-thousand (1000) inmates of the camp. Due to the fact that at that time, lectures of any nature had to be officially posted on bulletin boards, the "cover" topics chosen for these lectures had been "Journey to Mars and the Moon".

5. The name of the person who had given these lectures is unknown, but his available data is the following: Approximately 40 years of age, 6'2" tall, oval face, dark hair. This person also had a ^MDoctor's title and had been an SS Hauptsturmfuhrer or an SS Sturmbannfuhrer. This man had allegedly been released from the DARMSTADT Internment Camp in May 1948.

6. The following persons had allegedly attended these lectures:

a. Professor, Doctor (fma) BOHM (BOEHM), pathologist, formerly from the University of JENA (M51/J66) had been released from the DARMSTADT Internment Camp in August 1948., Present whereabouts unknown.
