UNIDENTIFIED FLYING OBJECTS (UFO)

The investigation of UFO sightings does not fall within the jurisdiction of the FBI; however, the FBI for a limited period of time did assist the Department of the Air Force in investigating alleged UFO sightings. The Department of the Air Force conducted investigations and studies of UFO reports from 1947 to 1969. On December 17, 1969, the Secretary of the Air Force announced the termination of "Project Blue Book," the Air Force program for the investigation of UFOs. The Department of the Air Force has furnished all documents regarding its investigations of UFOs to the Modern Military Branch, National Archives and Records Administration, Seventh Street and Pennsylvania Avenue, N.W., Washington, D.C. 20408, and this data is available for public review and analysis.

The National Aeronautics and Space Administration was asked by President Carter to look into the possibility of resuming UFO investigations in 1977. After studying all the facts available, it was decided that nothing would be gained by further investigation. The Department of the Air Force agreed with that decision. You may, however, wish to contact those Departments to see if there have been any recent developments.
