Subject: UFO Witness

Dr. Greer I was an engineer during the high altitude nuclear tests on Johnston Island 1992 to 1994. there were reported UFO activity during the tests and one eye witness, [REDACTED] was removed from the site for not shutting his mouth about them. I was also involved when a launch from Vandenberg AFB had the warhead shot down by a UFO. I was an engineer with the range safety system and we were to track the warhead on 2 MPS 25 radars. We were the midway tracking station and the package was targeted down range. We all were in shock when the warhead vanished. Caused quite an uproar!
My son and I have seen multiple events. One was a classic triangle (TR-3?) near grass valley and multiple events at Mt. Shasta over several years. I am a licensed commercial pilot, former US Navy Communications Technician with Top Secret Crypto. I have a degree in Physical Science and multiple patents in radar technology.
I would love to help you
[REDACTED] n [REDACTED]
