

OFFICE OF  
**JIMMY CARTER**

The Carter Center is a nonprofit organization with established programs throughout the world. President and Mrs. Carter's commitment to the Center's full agenda makes it impossible for them to respond positively to the many requests they receive daily. These include invitations to speak at events, to take part in media opportunities, or to contribute to books or other writing projects; requests to endorse, lend their name to, provide letters or advice for, or participate in projects; or to assist with fundraising in any way.

Though we appreciate the many worthy efforts that individuals wish to bring to the Carters' attention, we trust you will understand their inability personally to review each one. On their behalf, we wish you well in your good work but regret they cannot comply with your request.
