

CONTACT WITH THE UNKNOWN

by
[REDACTED]

Throughout my life, I have had some highly unusual things happen to me that I cannot explain. Some prefer to call these experiences paranormal, others may call them supernatural, but whatever you may call them it isn't until one experiences such a thing for himself or herself that it becomes real. I didn't ask for these things to happen nor did I try to make them happen. They began when I was a child like all the other natural body functions and I have had to live with them and try to understand and cope with them whenever they occur. In October, 1990 a series of strange occurrences began that I cannot explain. This time, however, there may be someone that can explain to me what happened since these events involve other people who seem to know more about what is going on than I do.

In October, 1990, [REDACTED] called to tell me that a high-level intelligence official from the Pentagon had contacted one of their intelligence sources and had told him [REDACTED] and Bill Moore to maintain a close relationship with [REDACTED]. When [REDACTED] told me this, I thought at first it may be some type of Psyop by the counterintelligence boys for some unknown motive. Afterall, it had been used on [REDACTED] according to Moore who had participated in it. But [REDACTED] sounded serious and perplexed; I could hear it in the tone of his voice. If it was some type of Psyop, then [REDACTED] was a victim as well. It didn't make much sense, since I was no longer active in ufology and had been inactive for nearly five years. I had nothing to offer, so why me?

Over the next few weeks, I had several telephone conversations with [REDACTED] asking him about this mysterious intelligence source and why this high-level intelligence source would want Bill Moore and him to stay in contact with me. I could not get any straight answers, since [REDACTED] told me that he didn't know any more than I did about it. [REDACTED] did tell me that this high-level official contacted his intelligence contact and it was through his contact that he had received this information. I also asked Bill Moore what he thought about this matter and he said he didn't know any more than I did.

During these telephone conversations between [REDACTED] and me, I learned that [REDACTED] was in contact with Dr. Scott Jones, an aide to Senator Claiborne Pell, Chairman of the Senate Foreign Relations Committee. Senator Pell and Dr. Jones have been involved in parapsychology research for some time. It was Senator Pell that helped Uri Geller establish himself when this Israeli psychic first came to the U.S. [REDACTED] and Dr. Jones had apparently known each other for awhile. I also learned that [REDACTED] was in contact with a number of people that was apparently involved in parapsychological studies, i.e., remote-viewing, etc. And that these contacts led directly to other people in high political offices, the Pentagon and the White House.

In a conversation with [REDACTED] on November 9, 1990, I asked [REDACTED] some questions about this mysterious high-level intelligence official in the Pentagon who told Bill and him to stay in contact with me. A part of the conversation went as follows:

[REDACTED]: "This scientist that you are supposedly working with that is involved in remote-viewing...., is he working with the Pentagon?"

[REDACTED]: "Uh...yea...he ties into a whole lot of stuff...all the way up to people in Congress...uh...and the White House."

[REDACTED]: "Uh.huh... Well, when this other individual from the Pentagon told you and Bill...I don't know whether he told Bill first or told you both together...but when he told you that, and then said something to the effect of staying in contact with me...."

[REDACTED]: "Right.."

[REDACTED]: "...and I am not really involved in the ufological community at this point-in-time..."

(2) [REDACTED]: "Why...I thought it was very curious because it wasn't like a list of names or anything else...you were the only person that they said maintain contact with. They asked if we knew you...and they said maintain a relationship with him."

[REDACTED]: "That's what I am saying, because I am just an average, ordinary individual out here...you know...in the community. I am not anybody with a string of credentials or anything like that and I haven't done any work in those areas, so-to-speak, like Uri Geller and some of the rest of them....and for someone, if his credentials are legitimate....you know....for him to tell you and Bill that. Did you react to that or did you ask him why Tommy Blann?"

[REDACTED]: "No. Because we have learned over the years in terms of relationship and stuff...that usually if there is more that they want to tell you at that point, they will tell you."

[REDACTED]: "Uh..huh."

[REDACTED]: "We figured the proof would ultimately be in the pudding. Something ultimately would develop somewhere along the lines."

About two weeks after this most mysterious telephone call from [REDACTED], I began to have some unusual dreams about Saddam Hussein and what felt like "out-of-the-body" experiences or remote-viewing about details of the war with Iraq. In these dreams I could see that Hussein was going to have three dreams that were of a religious nature, actually warnings about the actions he had already taken and what was to take place. It appeared that Hussein was also in contact with his psychics and seers. These dreams and remote-viewing experiences were so impressive that I felt compelled to call [REDACTED] and tell him about them as well as requesting that this information be given to "higher authorities". [REDACTED] complied with my requests and

contacted Dr. Jones. Dr. Jones, which I learned later, contacted the proper authorities which I presume were in the Pentagon.

██████████ called me the next day and told me that Hussein had had his second dream as Bill Moore had heard about it over the news. He sounded a little amazed by the fact that what I had said to him was coming true. I told ██████████ that Hussein had one more dream to go. I then proceeded to ask ██████████ if he had given the other information (details about the war) to the proper authorities and he told me he had. I never did hear about whether he had his third dream or not.

During this time period, I felt like I was in the middle of some type of "psychic warfare". It's the only way that I can explain it. And the previous events such as the mysterious telephone call from ██████████ telling me about this "high-level intelligence official" apparently in the Pentagon and then the unusual dreams and remote-viewing experiences or whatever one wants to call them had me wondering what was really going on.

I recalled that there have been a number of UFO associated incidents in which some people have a UFO experience and then later have unusual dreams. One in particular came to my mind during these unusual events, the Capt. Coyne incident which happened on October 18, 1973. I will not elaborate on the details of the Coyne incident since it can be found in UFO literature, but after the incident someone involved in "metaphysics" in the Pentagon called Capt. Coyne to ask him if he had had any unusual dreams since the UFO experience. Coyne, indeed, reported that he had had two unusual dreams. As time passed, the Pentagon would call the crew members of the helicopter who were also involved in this UFO encounter and ask them if they had ever dreamed of "body separation", in other words out-of-the-body experiences. What I find interesting about this Coyne incident is the nature of the case - unusual dreams and the Pentagon apparently knowing about them. Also, the time period is interesting since the two events, the Coyne encounter and my paranormal experiences, happened during the middle of October. In my case, a "high-level" intelligence official in the Pentagon tells ██████████ and Moore to "stay in contact with me" and then I have these unusual dreams and paranormal experiences. All of this may be purely coincidental.

Months went by without ██████████ or Moore contacting me, and then the Persian Gulf War was over and our troops came home. I thought to myself that if ██████████ and Moore was supposed to have "stayed in contact with me", they didn't do a very good job. I made no effort to stay in contact with them after I told them about my unusual dreams and other paranormal experiences concerning the war. I didn't know what the name of the game was, and I couldn't say that I was pleased with the past actions of Moore when he was dealing with Bennewitz. So, I dropped contact and played the waiting game.

I was determined to find out what was going on, so I called Dr. Scott Jones for the first time. I introduced myself and politely asked him several questions about his involvement in the field of ufology and parapsychology and if he knew ██████████ Dr. Jones told me

he indeed did know [REDACTED], and then I asked Dr. Jones if he had received any information from [REDACTED] to give to the "proper authorities" about the Persian Gulf War. He was a little reluctant to answer me until I told him that it was me that had given this information to [REDACTED]. Dr. Jones said, "So it was you". I said, yes. And he said, "Yes. I gave the information to the proper authorities". Dr. Jones would not elaborate on this matter, and I did not pressure him about it. We discussed other matters and he gave me his home telephone number in case I needed to call him about anything I felt important.

About a month later, I began to have another disturbing dream and psychic impressions during the day about a catastrophic earthquake soon to hit California. These were exceptionally strong psychic impressions. So I called Dr. Jones at home and explained what was happening. He suggested a wait and see situation, and told me that he would give this information and my name to a friend of his in the Library of Congress who had a research project called "The Migraine Project". The time period that I felt this event was going to occur came and went without anything happening. Later, I learned through a contact of mine that a group in Sedona, Arizona was claiming to be in contact with "higher intelligences" and they were reportedly receiving exactly what I was receiving. I wondered if I had been picking up what they were doing in Sedona rather than an actual premonition. Again, why me?

In October, 1991, I called [REDACTED] to see what had become of the intelligence contact and he told me that he just seemed to have mysteriously disappeared... "no one seems to know where he went." I questioned Moore about this, and he said, "I don't know any more than you do about it."

In a November 18, 1991 news article from Washington entitled "ESP used in Iraqi weapons hunt", I noticed that it was about "remote viewing" being used on Iraq. A U.S. Army Maj. [REDACTED] working with a UN team took data obtained by psychics via remote-viewing, who were associated with Edward Dames, president of a company called PSI Tech, to Baghdad. This intrigued me because I felt this was apparently connected to what had transpired between me, [REDACTED] and Dr. Jones during the war - especially the remote-viewing aspects.

On December 26, 1991, I called [REDACTED] to question him about this news article since he had told me that he was associated with some people involved in remote-viewing. [REDACTED] said, "one of my CIA contacts said the news report on remote-viewing was not true". He also said that "the CIA became extremely interested in the news story when it first appeared...". The CIA contact told him that Edward Dames, who said he had done certain things with psychics, had not done them and that "the story was merely a marketing scheme concocted to promote Dames's company". I told [REDACTED] that I found this a little hard to believe in view of the names and what was said in the article, not to mention what I had experienced. [REDACTED] said this is what he was told by his CIA contact.

A few days later, I called Dr. Scott Jones and ask him if he had received my letter since I hadn't received a response. He replied that he had. I realized that he had been taking trips out of the country and had been extremely busy. I then questioned him about the mysterious "high-level" official and my unusual dreams and remote-viewing experiences. He said, "You are still not clear on this?" I told him, no. He did not elaborate on this. As I explained my confusion over the matter of the paranormal events he said, "Tommy, I will tell you confidentially without getting into details that there were a number of people getting input in addition to yourself". I was kind of shocked and surprised at this statement. Again, I did not pressure him on this matter since he said he couldn't go into any details.

I then asked him if he knew about the news article on remote-viewing by a company called PSI-Tech and proceeded to explain what [REDACTED] had told me his "CIA contact" had told him. He said, "both statements are true" and he went on to explain how publicity was generated on this matter by CBS. He said that he knew Ed, President of PSI-Tech, very well, and that what was stated in the article about remote-viewing being used to obtain site locations on Iraqi installations was true and the information supplied by the psychics was accurate.

It is now the beginning of 1992, I am still in the dark on these most unusual events. I thought it was all over until today, January 9, 1992 around 10:05 a.m. I had just walked in the door when the telephone rang. I answered it thinking it was my wife, but instead it was a man on the other end that said, "Is this [REDACTED]?" I said, "yes." He then said, "I am the one who contacted [REDACTED]'s intelligence contact and told him to tell them to stay in touch with you. You, along with a few others on this planet, are going to be contacted by the visitors according to the program." I thought this was somebody pulling a practical joke on me, but he continued to tell me things that only I knew. I tried to question him about who he was, but he continued by saying that, "you have been watched for a long time because of your genetic development, in other words, a mutation of a new species over a long period of time." He then said, "we will be back in contact with you."

[REDACTED] and Dr. Scott Jones, but I could not get in touch with them. Dr. Scott Jones was apparently out-of-town and no one answered the phone at Shadera's home. I then called [REDACTED] and explained the scenario. I am not taking anything seriously, except for my own personal experiences.

This leaves me with several questions about this whole matter. Who was the mysterious "high-level" intelligence official that told Moore and [REDACTED] to "stay in touch with me?" Why didn't Moore and [REDACTED] stay in touch with me? Who is the Pentagon scientist involved with remote-viewing that [REDACTED] knows? Why did I have these unusual dreams and paranormal experiences immediately after [REDACTED] contacted me? Who did Dr. Scott Jones give this information to that he called the "proper authorities"? Who were these other

people that received "input" and just exactly what did Dr. Jones mean by this? Was PSI-Tech and others involved prior to the war using remote-viewing and I happened to pick up on it? Does this apply to the Sedona, Arizona area as well? Was my paranormal experiences the reason this "high-level" official contacted [REDACTED] through his intelligence contact in the first place? And who is this individual that claimed to be the "high-level intelligence official" that told me he was the one who was in contact with [REDACTED] intelligence contact? Is somebody playing games with me? Something doesn't add up here!

UPDATE REVISION

A few days later, I called Dr. Scott Jones and ask him if he had received my letter since I hadn't received a response. He replied that he had. It is now the beginning of 1992, I am still in the dark on these most unusual events. I thought it was all over until today, January 9, 1992 around 10:05 a.m. I had just walked in the door when the telephone rang. I then called [REDACTED] and explained the scenario. I am not taking anything seriously, except for my own personal experiences.

On January 14, 1992, [REDACTED] returned my telephone call as he and his wife had just returned from Florida. [REDACTED] asked me what was up. I told him about the latest development, and that I had contacted Martin Cannon so that he could confront Bill Moore about this matter. [REDACTED] indicated that he hadn't talked to Bill yet, and then he asked me questions about the recent telephone call of January 9, 1992.

EXTREMELY CONFIDENTIAL, 

Below is a highly summarized conversation with 

 "I just barely got your telephone message, since all that was on the answering machine was 'need you to call me.'"

 "I tried to call you when this latest event developed, but couldn't get in touch with you. I contacted Martin Cannon, since I didn't have Moore's number, and he got in touch with Bill recently [I explained what Bill Moore said to Martin Cannon]."

: "I haven't spoken with Bill yet, exactly now what happened?"

 asked me several times during our conversation to repeat what had taken place and the message I had received from this man who said he was the one who had contacted  intelligence contact. I explained that I had tried to contact Dr. Jones, but he was out-of-town. I reiterated what Dr. Jones had said to me about "there were others receiving input in addition to yourself." Shandera seemed interested in what Dr. Jones had said and questioned me on this matter. He also asked me if I had had any abstract dreams, and I told him no. Much later in the conversation,  revealed to me that something strange was taking place with him also.

 "I am going to tell you something in confidence, so please don't tell anyone. I have been having some unusual dreams also. I have been having abstract dreams for the past six months, about one a month, and the dreams seemed to be programmed. These dreams are filled with artwork and other things. I will go into it in further detail at a later date. Bill doesn't know anything about this."

: "Then, there seems to be something going on?"

: "There is no doubt in my mind that something is going on."

: "Then, the statement by this man seems to make sense in a way, and why he said 'Shandera's contact' rather than Moore's."

: "It does appear to be directed at me. I will contact the one who initially received this information and ask him if he has heard anything."

: "It might be a good idea to keep the exact time and date and details of these dreams."

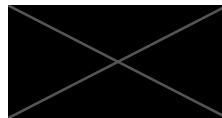

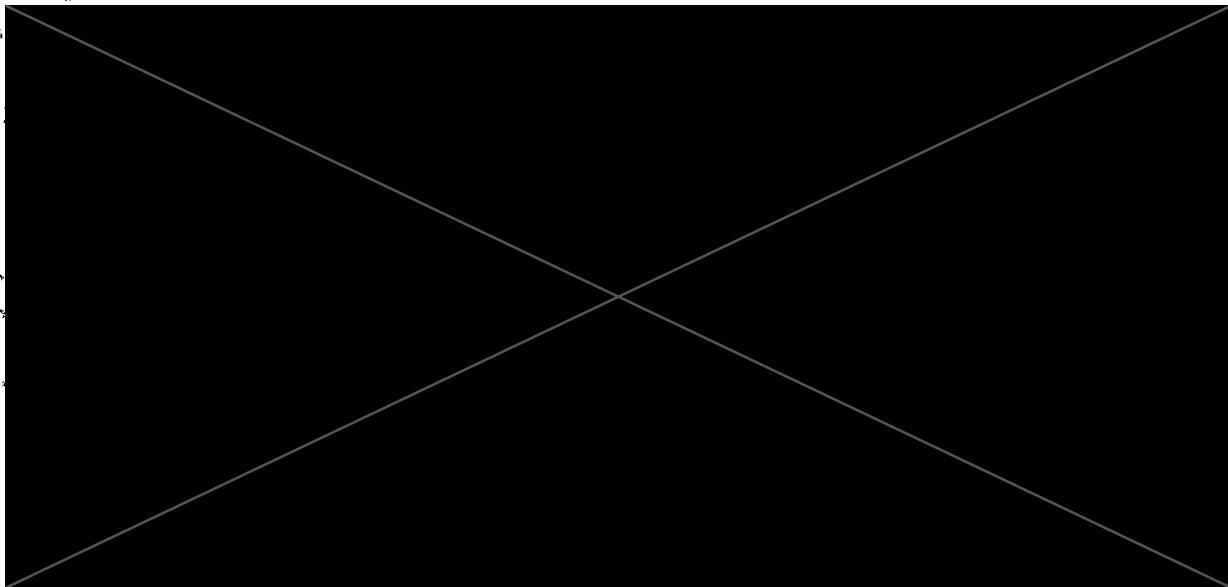

: "I have been instructed to keep a journal on these dreams."

 didn't indicate who had instructed him to keep a journal on them.

This leaves me with several questions about this whole matter. Who was the mysterious "high-level" intelligence official that told Moore and  to "stay in touch with me?" Why didn't Moore and Shandera stay in touch with me? Who is the Pentagon scientist involved with remote-viewing that  knows? Why did I have

these unusual dreams and paranormal experiences immediately after Shandera contacted me? Who did Dr. Scott Jones give this information to that he called the "proper authorities"? Who were these other people that received "input" and just exactly what did Dr. Jones mean by this? Was PSI-Tech and others involved prior to the war using remote-viewing and I happened to pick up on it? Does this apply to the Sedona, Arizona area as well? Was my paranormal experiences the reason this "high-level" official contacted [REDACTED] through his intelligence contact in the first place? And who is this individual that claimed to be the "high-level intelligence official" that told me he was the one who was in contact with [REDACTED] intelligence contact? Is somebody playing games with me? Something doesn't add up here!

1992

217

For the past year and a half, some developments have taken place that have caused me to question just exactly what is going on. I have remained silent about them, thinking some answers would surface. I have only told two people about these events initially - Martin Cannon and Tom Adams. Just recently, a [REDACTED] called me about these events since Cannon had contacted him.

I have talked to [REDACTED] on a couple of [REDACTED] discussing these [REDACTED] mysterious "high-level" official was that had contacted your "aviary" about me. I have had little success in getting any straight answers from you or Shandera. Please do not misunderstand me, maybe the two of you don't know any more than I do about it as the two of you have indicated to me (one by phone and the other by letter).

I have also contacted Dr. Jones about these events, since he is the one who relayed the first information (concerning the dreams and other information) to the "proper authorities." Dr. Jones said to me recently, "Tommy, I will tell you confidentially without getting into details that there were a number of people getting input in addition to yourself." I assume he meant the dreams and premonitions, but I don't know what he meant by this since he indicated he couldn't go into details. He also had the flu and didn't feel very well when he was talking to me, therefore, limiting our telephone conversation.

Granted, there may be no relationship between the high-level official who contacted one of your "aviary" and what Dr. Jones said recently. But the sequence of events and the nature of these events are highly unusual. There seems to be one thread that ties all this together - parapsychology.

Just recently, a man called me on January 9, 1992 at 10:05 a.m. and indicated he was the one who had contacted your aviary. He went on to explain the nature of the call and when I asked him about who he was, he told me some things of a personal nature that only I would know and then he went on to finish his discussion. He said, "I am the one who contacted Shandera's intelligence contact (note he did not say Moore's contact) and told him to tell them to stay in touch with you (note this did not appear to be a one time thing). You, along with a few others on this planet, are going to be contacted by the

visitors (note he did not say alien beings, EBEs or ET's) according to the program (note he said program). You have been watched for a long time because of your genetic development, in other words, a mutation of a new species over a long period of time. We (note he said we rather than I) will be back in contact with you."

Gentlemen, let's not forget that we are all after the truth. These counterintelligence activities and disinformation games are not going to get us closer to the truth, but will lead us farther astray. I do not like to play "mind games" nor do I have time for it. I do need your honest and open-minded approach in this matter. Some things have happened to me that I cannot explain, of course, this is not the first time in my life that strange things have happened. Some of these things may not be directly related to each other, then again they may. This most recent event may be a hoax, then again, there may be something happening here that none of us understands.

This is what I need from the two of you:

(1) Find out who the mysterious "high-level" official was that contacted one of your "aviary", and find out what his background is and why he wanted the two of you to "maintain a relationship with him (Tommy Blann)" according to [REDACTED]

(2) Find out what Dr. Scott Jones meant by "there were others receiving input in addition to yourself." I will also talk with him about this. I would also like to find out the names of these other individuals who received this "input".

(3) Tell me who this scientist is that is working in or associated with the Pentagon that is involved in parapsychology. [REDACTED] indicated this to me on the telephone in one of our conversations. This scientist even asked if I had ever been associated with Uri Geller according to [REDACTED] I want to talk to him directly.

(4) Tell me the name of the one in the "aviary" who received this information from the mysterious Mr. X. according to Moore. I want to talk to him directly.

I am looking for some answers, gentlemen, I am not pointing fingers at anyone nor do I want to cause any hard feelings or misunderstandings between individuals. There is enough of this in the field already. There is also too much secrecy, where the right hand doesn't know what the left hand is doing. I also do not care for any publicity on this matter, and this is one reason I only contacted two people I could trust initially when these events started.

Please respond at your earliest convenience.
