Subject: [REDACTED] NRO contact

Dear [REDACTED]

Please forward this info to Steven. He has been waiting to receive it.

Thanks,

[REDACTED]n

Dear Steven,

During the recent CSETI workshop at Crestone, I mentioned to you that I knew a man who was in both the Air Force and the NRO for 22 years each and you were very interested in him as a possible witness for your disclosure film.

I intended to do a brief video of Dan and send it to you but Dan said he sent CSETI a video with lots of info on it about 2 months ago after he heard you speak at the UFO Congress in Nevada.

He said that he has not heard from anyone at CSETI regarding his video.

I have not seen his video but he has shared with me tons of inside info and has been talking to small groups and anyone who is willing to listen. He is currently writing a book about his experiences.

He assured me again today that he is willing to be a witness.

As I also mentioned to you, Dan had a stroke about one year ago so he does not remember or speak that well. For instance when he talks he slurs his speech which sometimes sounds like he is drunk.

He does not remember what he was wearing in the video that he sent you. I mention this because a couple of years ago he showed me a video where he was wearing a silly big confederate hat and insignia. IF that is the video he sent you, you might have glanced at it and decided it was from some kook.

Anyway, his name is [REDACTED] and today he authorized me to give

[REDACTED] if you want another video.

Best
