Re: Re: Desert Research Station Log Book (Utah '52 UFO crash site)

>Subject: Re: Desert Research Station Log Book

>

>Greetings

> I will photocopy my list (it is not the original, but a typewritten copy).

>The PP has the original book. I also wanted you to know that I am not
breaking

>any promises of secrecy with the PP, as they themselves have come out in a
>semi-public manner on this site, however most in the field are not aware
of it.

>They started to research this site in about 1993, and since I have had a good
>relationship with them, they shared the information. We both held this in
>confidence until last year, at which time both of us released information.

I have

>advised several members of the Bay Area OPUS Group, which I have a long standing

>good relationship with (I know many of the founding members personally, most
>notably [REDACTED]). I also
advised

>both the director and the primary investigator of the Utah MUFON chapter,

██████████ and ████████████████████. I am currently working on the site with ██████████ and several others.

> We plan an expedition there this spring and are going to use a fair amount of

>equipment to test the area, as well as leave behind equipment that will
monitor

>the area in our absence

> Getting back to the list for a minute, of particular interest are the people

```
>from NRO and ONI who have been to this very remote, out of the way
agricultural
```

>station. It very much reminds me of the facility depicted in the Andromeda
>Strain, and due to the location, this is highly possible. I would love to
scan

>the area with ground penetrating radar, or similar types of sounding

equipment.

> I have also contacted BLM to see if I can speak to anyone voice about the
> history of the site, but have not heard a thing from them.
