[REDACTED]

Thank you for your recent letter regarding the planned February 25-27 meeting in Washington, D.C. It's good to know that your leadership in this area continues.

As for my possible participation, I have substantially reduced my overall charitable programs and am becoming much less active in the UFO field. My interest and support currently is limited to some scientific research efforts. I am sorry I cannot be helpful to you but send my best wishes for your continued success.

Sincerely,

Steven Greer, M.D.
International Director
