

[REDACTED]

[REDACTED] was born at **[REDACTED]** on **[REDACTED]**. He joined Co. E, 201st Infantry of the W. Va. National Guard just prior to his 17th birthday in October 1939. Upon graduation from Weston High School in June 1940 he joined the Signal Corps of the Regular Army. He became an Aviation Cadet in July 1942 and was graduated as a U. S. Army Air Forces pilot in April 1943. He arrived in England in early Nov. 1943 as a B-17 Pilot/Aircraft Commander and flew 29 bomber combat missions (24 over Germany proper) with the famed 379th Bomb Group until April 11, 1944. He then delivered fighters and bombers, and flew transports from North Ireland around the United Kingdom until Mid-August 1944. After home leave he became an Instructor Pilot in B-17s and Asst. Ops. Officer at Avon Park, Fl. He again volunteered for overseas duty and completed training as a pilot of C-87 and C-54 transport type aircraft. He departed San Francisco, CA on Sept. 2, 1945 as a C-54 pilot with stops at Hawaii; Johnson Island; Kwajalein; Guam; Manila; and Kunming, China; arriving at Dacca, then Calcutta in India. After a few flights in the China-Burma-India Theater, including two flights over the famed "Hump", he returned to the United States by the same route in October 1945 and upon separation on Dec. 1, 1945 was promoted to Captain in the Army Reserve.

After completing West Virginia Wesleyan College in 1949 he joined the newly formed U. S. Air Force and received a Regular Air Force Commission. Early in his career the U. S. Air Force sponsored a full calendar year of graduate studies at the George Washington University resulting in his receipt of a M. A. Degree in Government, plus fifteen graduate hours. He served with HQ. United States Air Force; HQ. U. S. Air Forces Europe; HQ. Tactical Air Command; HQ. Royal Air Force, U.K.; and Organization Joint Chief Of Staffs. In 1965 he declined promotion to Colonel in order to request early voluntary retirement as a Lt. Col. to accept appointment (and promotion) as a Senior Foreign Service Reserve Officer. During the Vietnam War he served for six continuous years in Southeast Asia with the Foreign Service, with most of the time spent in and around Laos and Vietnam. During fifteen years of serving abroad as a Military or Foreign Service Officer, he received numerous U. S. and Foreign awards, citations, commendations, etc. for his app. nine years of service in and around a combat zone.

After thirty years of government service, he retired in 1972 and moved to Miami, FL. He formed a combustion research company in 1974, concentrating on energy and environmental research, and has worked as a research scientist/inventor and CEO since that date. He has also received national and international recognition for his research efforts to include: his 1980 selection as one of the six outstanding energy inventors in the United States by the research staff of the "NBC TODAY SHOW," and selection as "1987 NATIONAL INVENTOR OF THE YEAR" (in competition with all U. S. inventors), by the Palm Beach Society of American Inventors, Inc.. In 1992 he was also recognized by the Governor of West Virginia with a "Distinguished West Virginian Award," both for his government service and subsequent civilian careers.

Dec. 12, 2000

Dear Steven &

Just a short note with thanks for your rapid response to my request for the additional books. Enclosed please find a check for \$65.00, which is to pay for the books, plus \$15.00 to cover basic costs of the tape of my interview in Miami.

Am also enclosing a considerable amount of background data re my fairly extended life span. I hope that you find it at least somewhat interesting. I did not realize that I was posing for a book cover when the photo of my B-17 was taken. I find that it is much easier to fight a war some 50 plus years after the fact, from my own home.

Have enjoyed our meetings, both personally and by telephone. I look forward to receiving your thoughts re a mutually beneficial possibility of launching this unknown science. Needless to say it is not easy.

Have a great happy and healthy holiday season.

Cheers

not to call

Steven,

I spoke with [REDACTED] Proj. Grudge/Sign) last night. He has reviewed the Disclosure Project materials I mailed to him, and would like to talk with you.

He is available the last week of October, and the first & 2nd week of November (except for 13-14 November).

He is not, at this time however, willing to be videotaped.

I sense that he feels being that public on the UFO subject may bring adverse publicity to several energy projects he is spearheading, as well as feeling that he is not an "expert witness" on the subject.

My sense is that an interview would be worthwhile, given his past involvement in Grudge/Sign, even without videotape.

A personal call from you, especially if you emphasized the importance of "archiving" his story, may result in his agreeing to a videotaped interview. His number in Miami, FL is: [REDACTED]

Best regards,

[REDACTED]
