Hi Steven,

██████████ from France will be in Washington on april 15 till the 22nd and he is asking if it is possible to spend some private time with you like 1 or 2 days in Washington. He has very important documents to give you and he will be accompanied and high profile French astronaut.

I suggest that you call him directly and make appropriate arrangements. He will be back home on thursday feb. 12th in the evening.

Have a great day
Love and Light
██████████
