

SIGHTINGS

BEYOND IMAGINATION LIES THE TRUTH

Date: 11/14/95

Dear [REDACTED]:

I am a researcher working on the "Sightings" television show. The subject matter of our show deals with unexplained phenomenon, including UFO stories. I came across a Jan. '89 MUFON (Mutual UFO Network) Journal story, written by Dr. Robert Jacobs, which details the Big Sur missile filming project in September, 1964. I have contacted Dr. Jacobs and he has agreed to work with us to produce a segment regarding his story. It is our hope to work with Dr. Jacobs and represent his story in the most accurate way possible; as opposed to sensationalizing the accounts with wild speculation.

As I'm sure you are aware, you are mentioned in Jacobs' story as a witness to the unidentified object recorded on film. I also understand that you have responded to other researchers and have confirmed his account as true. However, confirming the story to a national television show could cause an uneasy feeling for you and I can understand that. By the way, I did not want to contact you before speaking to Dr. Jacobs and when I mentioned the prospect of speaking to you, he did not either dissuade or persuade me. Regardless, the reason I am writing you is to request a written confirmation of his story to be used as a visual element in the piece. Ideally, we would mention and show your name in the segment. If you are opposed to this, then please inform me. Perhaps we could refer to you as a Major without stating your name and refer to your written confirmation (if provided with one) and black out your name. Although since verification and cooeration of the story is something we seek to help tell the story, we would, with your permission, prefer to use your name.

If you could respond to me in writing or call me, I would greatly appreciate it. I am more than happy to respect your wishes

regarding this fascinating story. I can be contacted by writing to the below address; please feel free to use Federal Express on our account. [REDACTED] can also be reached at the Sightings production office at [REDACTED]. Since we are planning on producing the piece relatively soon, an expedient response would be greatly appreciated. I thank you very much for your time and truly hope to get cooperation from you.

Please write to:

[REDACTED]

*Verified your story again
and told him the optical system
and its abilities were part of the story
and he should get in touch with you
again for details*
