>Subject: ET's

✓

>Dr. Greer,

>

>I recently heard D [REDACTED] call for individuals with ET
>information to come forward. I have information from the Lunar
Orbitor

>program. I was stationed at Langley Field where the first photos of
the

>back side of the Moon where received. I am considering sharring
this

>information with others on the radio in the near future and would like your

>input before doing so.

>

>I must say I have concerns about my safety over these actions and even

>concerns about communicating this information to your office, having
no

>idea as to who you are. However, I feel I have a moral obligation
to take

>the risk and move forward with this.
