Dear Steve:

Would it be helpful to involve [REDACTED] in making the energy package viable? I may be able to make that connection, and am looking at going to New Mexico in March. He make such a great speech regarding energy in reference to the power outage a few months ago. Of course, he also has that Energy Dept/United Nations background. I believe that he could be a key player now.

What do you think of the idea? If you like it, let's talk.

Best,

[REDACTED]
