[REDACTED], please allow me to make my case for having Steve interview [REDACTED] while in L.A. (you may forward this to Steve if needed):

1. [REDACTED] is part of a group of journalists at the L.A. Times (where he was the Metro Desk Copy Editor) that won a Pulitzer Prize. He is the highest-level media professional I know of who claims to have been aboard an ET vehicle (he's been on board twice in three years).
2. He is a distinguished, mainstream person (30 years at the L.A. Times) with an important contact story, one which dovetails with the disclosure agenda of CSETI. According to his story, an alien race called the Verdants has made over 800 human contacts, leaders at the highest levels worldwide; these human contacts will be "going public" about their Verdant involvement around the year 2003.
3. Krapf is the designated "public spokesperson" for the Verdants until then; this is announced in his new book that we are publishing soon, to be called HUMANITY ON THE BRINK. His first book (15,000 sales) from a prestigious publisher, announced the basic Verdant agenda in 1998.
4. Phil is in town (lives north of LA) during the time Steve is there; he could also make it over to the Prophet's Conference in December.

That's the condensed version; let us know if there is anything else we can help with in this connection.

Many thanks,

[REDACTED]
