WITNESS REPORT FOR [REDACTED]

1. Obtain full name, address, phone numbers, email and other data and record same

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

[REDACTED]

2. Obtain brief educational and employment history relevant to the testimony (ie, government, military, intel., corporate)

In the Air Force, stationed at Bentwaters, UK from May 1978 – December 1980. She was with the 81st Security Police Squadron; her field was Law Enforcement. She drove on patrol at RAF Woodbridge and RAF Bentwaters as part of Security Police; maintained security on buildings; worked as a gate guard. She had a Secret clearance. (She left before the big event in December, 1980)

After leaving Woodbridge/Bentwaters, she served at Lowry AF Base, Nellis AF Base, Defense Systems and Management College, AF reserves, Army National Guard; now she works for the US Department of Education and is in the Army reserves at Fort Belvoir.

3. Record the details in summary form of the witness' testimony, providing salient information on date, location, position and involvement at the time of the UFO/ET event or project

February, 1980 about 2 or 3 am. On patrol as Police 4 at RAF Woodbridge, a nuclear weapons storage facility. In patrol pick up truck, with Airman First Class Duffield, sitting in vehicle facing east looking out over the runway.

Saw a bright light in the sky that approached the base. Runway lights were not on for a plane to land. It stopped, then moved deliberately up, down, left, right. Then it burst into 3 pieces. The pieces kept moving towards the runway, until about a football field away, each light now about the size of a thumbnail. Made no sound. (She knew all fighter aircraft that would land there were very noisy.) The three objects moved across the runway about 200 ft. above it, in a triangle with one object leading and the other 2 behind, in perfect formation as if connected. Then they shot up and disappeared. The time from the first sighting of the light was one to two minutes. Couldn't see structure, only lights.

She called it in on the radio to Sergeant Cohen at Police Control. He said to report it to the air tower - It might have been a breach of security. She went to the 2 story air tower 1 mile away. Airman there had been asleep. She reported to Police Control that the tower saw nothing.

4. Ascertain the witness' degree of cooperation : Is he / she willing to be interviewed under full identity? Under a disguise (we want to discourage this except in rare cases) ?

Fully cooperative, willing to be interviewed

2. Obtain brief educational and employment history relevant to the testimony

The three objects moved across the runway about 200 ft. above it, in a triangle with one object leading and the other 2 behind, in perfect formation as if connected. Then they shot up and disappeared. The time from the first sighting of the light was one to two minutes. Couldn't see structure, only lights.

She called it in on the radio to Sergeant Cohen at Police Control. He said to report it to the air tower - It might have been a breach of security. She went to the 2 story air tower 1 mile away. Airman there had been asleep. She reported to Police Control that the tower saw nothing.

4. Ascertain the witness's degree of cooperation : Is he / she willing to be interviewed under full identity? Under a disguise (we want to discourage this except in rare cases) ?

Fully cooperative, willing to be interviewed

5. Ask if he/she has corroborating witnesses to the event or project or corroborating documents and other materials

Has the names of one witness and person she called at Police Control (see above) but doesn't know where they are now. She saw Duffield in about 1984

at Travis AF base and they didn't discuss this.

6. Always ask if the witness has other evidence, networks, or contacts to other witnesses which could be useful to the project (they may not offer this and so this should always be asked).

Has given contact information for witnesses to the December, 1980 Bentwater incident

7. Write your own assessment of the value of the witness's testimony and credibility, and HOW the witness comes across (articulate, etc) .

She seems credible, and can clearly describe the details of her encounter. She is concerned about recurring dreams with a psychic component related to her time at Woodridge/Bentwaters, and thinks there was a strange frequency there, due to experiments. The atmosphere was very negative and she feels somehow it got under her skin.

Her report is significant in that it occurred prior to the famous incident, 10 months later.

8. Let the witness know that we will be contacting him/her later to set up a date to conduct a full interview.

Done. She would love to participate and wants to meet other witnesses.
