Certainly IF she is a witness to such events and can PROVE it and has the documents, she should contact us with such evidence. It is possible that such events are real. However, it may also be a spoof.

He needs to have her contact me directly with the proof and evidence, and come in out of the cold.
BTW Blackwater does not exist; it is called another name now I believe...

Hi Steve,
This is from the guy who had the "foo fighter" type experience that I forwarded to you.
I don't know what to tell him.
I don't know if it's real or not.

What do you think?

thanks.
