Very good!

BTW - and very confidential- a supporter of our work is a major networker in DC and has recently met with [REDACTED] - Obama's green jobs czar who bowed out after GOP attacks- and Jones and his wife are interested in CSETI, DP etc. This supporter also networks with the Bush family, the [REDACTED] and [REDACTED] family. We hope to hold a meeting soon with some of these folks to gather support for the energy research initiative (there is more interest in that than the ET issue..)

Keep up the good work ! :-)

Steve

Hi Steve:

JP and I chatted again briefly last night. Because he had literally just returned from running the marathon in Rome this weekend, he asked for some more time to read over the briefing. His interest remains, however, and we continue to ponder whom to approach and when (including the possibility of an informal gathering with you, me, JP, your military advisor and/or some witnesses).

I'll of course keep you apprised as I hear more.

Thanks,

I think besides Obama, it would be best for John to determine who is a) supportive of the issue and b) very trustworthy on such sensitive matters. I say this because - in order for POTUS to make progress on this complex issue- those working it for him would need to be of the highest integrity- like John. As mentioned, I believe they will need a special assistant to the President on this matter who can work around the usual blockade intrinsic to the 'black world'.

I hope JP, you and me can meet and discuss this in the near future.

Thanks again for the great work on this very historic initiative! Steve

Excellent -- I'll let John know about the others who received the package.

I think John would be happy to recommend additional parties we can forward it to with his blessing; he's basically spending the next week thinking about that and who best to strategically approach. From your own intuition, however, who else do you think would be sympathetic to receiving it? Any other key players (aside from POTUS) whose interests are more or less aligned with ours?

Thank you [REDACTED] Great work.

People in my network like you who know [REDACTED]
House Intelligence Comm. Chairman, Napalitano, Homeland Security - have received the briefing...Also [REDACTED] France. Many reactions, no action taken yet pending POTUS.

I would be happy to meet and discuss with John anytime...
Did John offer to send to other figures in the Adm.?
Again, many thanks!
Steve

Hi Steve:

True to my word, I delivered the package to John this evening. He promised to look it over and revert to me this time next week with his thoughts. I will most certainly keep you apprised of any developments, but I've already mentioned the possibility of setting up meetings among us and Congressmen / members of the Administration he deems sympathetic.

Could you remind me which members of the Administration have already been personally delivered copies of that package? I think it'll help for him to know who has a copy and what their initial reaction was (if any). Also, who else would you like to receive a copy that he can forward it to?

Thanks,

Hi Steve:

John just let me know that he is away this week, but we'll be meeting again next Monday (3/15). His is certainly a busy schedule. I'll let you know if anything changes in the meantime, but rest assured our small steps continue to make pace.

Thanks,
