Had a radar lock on it

Cigar Shaped craft with one row of white lights, hovering about 5000 ft. He was asked for a confirmation so he came up and saw that it was there. After 5 mins, it took off, very quietly - no noise. Went over horizon in very short amount of time. Went off the scope in 2 or 3 sweeps. 9:30 at night either 25th or 26th of July. Is sure they logged it, but there appears to be no record of it now. Has a copy of their log from the Naval Historical Center and there is no mention of this occurrence in it. Did not report it to anyone after, and no one cautioned not to talk about it. Has a release from Navy that says he is not bound to secrecy and is free to make a statement
