Edwards AFB 1971 Crash

I submitted information regarding my experiences with the 1971 UFO crash (shot down) at Edwards AFB. Confirmation see

[http://\[REDACTED\]](http://[REDACTED]). Also Airman Everett King [REDACTED]. Unfortunately he did not see me on the site, but gave evidence about the craft, i.e, that it looked like "an egg cracked in half" which no other witnesses stated...and which I also stated. No one has come to interview me regarding this crash and the incidents that followed....I was arrested, hand-cuffed and driven to a hanger type building for interrogation. Another trip for interrogation occurred some time later. I was driven to Edwards by Sgt. [REDACTED] for further interrogation. When I searched in military documents for whereabouts of [REDACTED] I found his rank and address in Arizona. Sometime later I searched again and the rank had been changed, but address and name of spouse remained the same. Again, I searched and his middle initial was changed and rank showed him as a pilot! This guy was NO PILOT. I know this happened. Yet, no one seems to want to follow through. I have gone through so much PTSD, physical ill health etc. and don't understand why this event hasn't been given further attention. I was shackled to a table in a laboratory (somewhere), sexually assaulted and dragged. I believe my story is of significant important.

I have always wondered why no one has ever followed through with this incident and the events that followed. An eye doctor recently revealed flash burn and laser damage to my left eye, indicated from the rate of deterioration that the event that caused the damage took place sometime during 1971-1973. Coincidence...I don't think so. All the other things I have gone through....coincidence....I don't think so.

Please at least let me know if you have received this message. Needless to say I have been hassled through the years...phones bugged, etc. and I am not certain if my e-mail is being received. Thanks.

- [REDACTED] Boone, NC
