UFO DATA TAPES

"FATAL ENCOUNTER AT FT. DIX" brings us Mr. Leonard H. Stringfield, author, lecturer and veteran UFO researcher. The basis for his belief is the collection and correlation of data from reliable firsthand sources that present a strong case pointing to actual retrieval by military forces of crashed alien craft with humanoid occupants. During WWII, he served in the Intelligence Service of the 5th Air Force in the Southwest Pacific Theatre for 31 months. It was during this time that he had an encounter with three UFO's which almost caused his plane to crash.

"FATAL ENCOUNTER AT FT. DIX" examines the correspondence of one military man brave enough to dare to write down what happened at Ft. Dix. (Includes slides)

"CRASHED SAUCERS" by William Moore is a must for anyone seriously interested in becoming an authentic UFO investigator. Moore's credentials as author of THE PHILADELPHIA EXPERIMENT, co-author of THE ROSWELL INCIDENT, publications writer for Frontiers of Science, Saga, the MUFON UFO JOURNAL, and the APRO Bulletin along with research consultant on the motion picture "The Bermuda Triangle", co-script writer on "UFO Chronicals:1980" and special PR consultant on "THE PHILADELPHIA EXPERIMENT" are explanation enough for his fantastic news journalist type digging for the facts behind crashed saucers. This tape carefully examines every angle of one story which turned out to be false and another story which, to this day, still has no solid conclusion.

"UFO REPETITIONS" presented by George Fawcett describes the common traits and conditions of the appearance of UFO's. Known both nationally and internationally, Fawcett has over 40 years experience as a ufologist and is author of the book QUARTER CENTURY STUDIES OF UFOS IN FLORIDA, NORTH CAROLINA AND TENNESSEE. With a A.A. in Psychology and Education, Fawcett has served as MUFON State Director, State Section Director and Field Investigator for North Carolina since 1979. (Includes slides)

"NOISY NEGATIVISTS" allows nuclear physicist Stanton T. Friedman, recently seen in HBO's "UFO's: What's Going On", to demonstrate how to deal with nonsensical non-believers. Having a Masters of Science from the University of Chicago and having worked for TRW, GENERAL ELECTRIC, GENERAL MOTORS, AEROJET GENERAL NUCLEONICS and WESTINGHOUSE on a variety of classified programs concerned with the development of nuclear aircraft, fission and fusion rockets and a number of compact nuclear systems for space and terrestrial applications, one can see why he insists that if a person is going to discuss the subject of UFOs, that they do their homework and get the facts before spreading non-factual rumored points and plain nonsense. This tape has some good answers and powerful statements in favor of UFOs. This man has openly challenged Phillip Klass (known UFO debunker) for public debate and has been declined by Mr. Klass on numerous occasions. A must for those knowing that UFOs are real and a challenge for those who are skeptical. (Includes slides)

"UFOS: THE BURDEN OF PROOF" gives us New York attorney Peter Gersten, also seen in HBO's "UFO's: What's Going On", showing the overwhelming evidence supporting the existence of UFO's. Gersten joined MUFON in 1977 as legal advisor and field investigator. Gersten's serving as legal counsel to Ground Saucer Watch in GSW vs. CIA, September 1977, resulted in the release of over 900 pages of UFO documents. Gersten is a member of the New York State Bar Association and works in the law firm of Gagliardi, Torres and Gersten in Tarrytown, New York. Gersten's entire approach is "We know UFO's are real and are here, that's no longer the question...the question is who are they, where do they come from and what do they want."

"ABDUCTION REPORTS" presents Budd Hopkins, an artist living in New York City who has made UFO's an interest since his daylight sighting in 1964. He actively began investigating UFO's in 1975 with the North Hudson Park landing. A close encounter of the third kind incident that happened only one mile from Broadway. Since beginning studies of abduction cases, Hopkins has written extensively in his book "MISSING TIME: A DOCUMENTED STUDY OF UFO ABDUCTIONS" along with contributing articles to the MUFON UFO JOURNAL, OMNI, FATE, AND THE NEW YORK REVIEW OF BOOKS. In this video, he presents an audio cassette of one woman placed under hypnosis and reliving her abduction with follow-up discussion (due to Mr. Hopkin's wishes, the slide portion of this presentation was withheld from camera).

"PHYSICAL TRACE LANDING REPORTS" gives a fascinating look at evidence gathered and discussed by Mr. Ted Phillips. Phillips has been described by Dr. J. Allen Hynek as "the world expert in physical traces found at alleged UFO landing sites." Phillips has investigated over 550 UFO reports and has compiled a research file on physical trace landing cases containing more than 2,500 cases from 65 countries. Phillips' expertise has brought him into television and film documentaries, NBC and CBS news specials, a documentary in Japan, the "In Search Of" tv series, P.M. Magazine and the feature length movie "UFO's Are Real". (Includes slides)

"MEDICAL EVIDENCE" is Mr. John Schuessler's field. As an aerospace engineering manager, Schuessler has been associated with all major manned US space programs. Mr. Schuessler is the principle investigator in the Cash/Landrum injury case and appeared on "Good Morning America" with Betty Cash, Vickie Landrum and Colbey Landrum, the victims of a UFO close encounter near Houston, Texas on December 29, 1980. Schuessler is a founding member of the UFO Study Group of Greater St. Louis and the Mutual UFO Network, Inc. This tape shows a variety of human and animal victims whose injuries indicate an encounter with something definitely out of their normal existence.

"HYPNOSIS AND ABDUCTION CASES" showcases the Investigation results of David Webb, an active MUFON member since 1974 and UFO investigator since 1960 and current member of the Society for Scientific Exploration. Along with Ted Bloecher, Webb maintains a catalog of over 2,300 close encounter of the third kind reports. Webb, through the technique of hypnosis, has been able to help those who've had an encounter to recall important details, enough to begin analysis and clue several possible reasons for abductions.

1985 UFO DATA *MI*
!! VIDEO TAPES !!

To "John Q. Public", SEEING IS BELIEVING! Those of us that know and understand UFO's existence and that ufology is deserving of serious study, communicating this to family or friends has proven difficult. Especially if you are a beginning ufologist, trying to convey what the professional researchers have studied and compiled can be an impossible task.

These tapes will provide an exciting way to share ufology with others. They will be able to WITNESS for themselves the credible nuclear physicist, the writers and the medical people as they present the evidence that has been gathered through years of research.

INDIVIDUAL LECTURES: (Circle One) \$30.00 VHS \$33.00 BETA
(For overseas orders: \$50.00 VHS \$53.00 BETA)

____ BILL MOORE "CRASHED SAUCERS"
____ S. T. FRIEDMAN "NOISY NEGATIVISTS"
