Steve,

Tried to reach you.

You need to speak to [REDACTED] the Chief Executive Officer. CSHI [REDACTED]
I suggest that you make an off the record agreement to facilitate good discussion.

It would be best that [REDACTED] and I are not brought into this dispute PLEASE, PLEASE.

Thank you again for a wonderful lunch and visit.

I had a long conversation with a senior genomics expert who has definitively confirmed the academic errors and misconduct of [REDACTED] and the report in Genome Research.

It is imperative to protect the legacy of that journal and Cold Spring Harbor that the report be further reviewed and retracted ASAP.

It would be a tragedy for them to get caught up in what is certain now to be a high profile academic scandal.

Substantial academic and concerned public interest resources are lining up to expose to incompetence and malfeasance connected to the Nolan research and report.

I hope  has a wonderful 90th birthday celebration!

Call me when you get a chance.

Best always,

Steve
