Subject: Attn Dr. Greer

I cannot find an email for Dr. Greer. Will you plz forward this email to him.

Dr. Greer,

I wanted to contact you with a suggestion I hope you concern yourself with.

Let me just say directly that I have no interest in being identified, publicly speaking, commenting or appearing in regards to my suggestion.

In the late 90s through 2000, I was a 2w2 Nuclear Weapons Specialist stationed at the [REDACTED]. I held a Top Secret Clearance and participated in two special operations, both of which required a Critical status, or what you might know in the civilian world as Q, or sensitive.

Dr. Greer, you really need to research this facility. You may just find information that would most certainly be helpful to the disclosure cause. May I also suggest you start with Sandia national labs and the correlation to this base.

Good luck sir.
