

Foundation For UFO Research _____

President

January 16, 1997

Dear Sir/Madam:

There is an incredible yearning by people around the world who are thirsty for information on life in outer space. At no other time in the modern 20th century has there been such a great interest in this topic. If historical UFO industry research proves to be true, there may well be over 100 extraterrestrial life forms in the known universe. There may be more of which we aren't aware.

And currently no institution of higher learning addresses this information from this perspective.

Over the past three years Roger L. Scherrer, in conjunction with UFO industry consultant Christopher T. Maynard, has developed and refined an exciting new concept. [REDACTED] renowned extraterrestrial researcher and scholar, has developed a curriculum. [REDACTED] holder of the most extensive worldwide collection of UFO photographs, is donating his collection. Now the time is right for this exciting new concept!

Initially known as the **UNIVERSITY OF THE STARS™**, this exciting new educational complex is positioned as the *premier nexus point* of higher education dedicated to the study of extraterrestrial life throughout the universe. It will help foster a greater understanding of extraterrestrial civilizations, cultures, and life forms, as earth societies someday soon prepare to join a greater universal community of planets and civilizations. It will be located in Tucson, Arizona to honor and continue the tradition first set by the Aerial Phenomena Research Organization (APRO), founded in Tucson 45 years ago.

People currently committed to sponsor and participate include:

1. [REDACTED]
 2. [REDACTED]
 3. [REDACTED]
 4. [REDACTED]
 5. [REDACTED]
 6. [REDACTED]
 7. [REDACTED]
 8. [REDACTED]
 9. [REDACTED]
 10. [REDACTED]

These bright, intelligent and dedicated people are joining together to accomplish this exciting and attainable concept. Please carefully examine the **AGREEMENT TO DONATE OR CONTRIBUTE** form. It will clarify the various methods you can use to participate, and support in the success and growth of this exciting visionary concept. Please join us. Thank you.

Sincerely,

[REDACTED]
