Dear John,

You will note the extreme timing of our request to meet with you, and the recent announcement that the US Air Force just released secret files of UFO reports cited in the Blue Book Project.

I grew up in Roswell, my family knew Oppenheimer.

Let's get our meeting time and date set up ASAP so we can move forward on our unprecedented discussion concerning disclosure of our ETI from a contiguous universe and their connection to zero point energy for humanity.

Best regards,

Edgar
