OBSERVER RELIABILITY: excellent, very sincere in their observation;
All witnesses have good eyesight.

DATE AND HOUR: May 29th, 1968, 10:02 P.M.

PLACE: In the back yard of Mr. John [REDACTED]'s property located
on [REDACTED]. His telephone Number [REDACTED].

WEATHER: Cloudy, ceiling 650 ft., windy, visibility good.

DURATION: 2 to 3 minutes.

NUMBER OF OBJECTS: One.

SHAPE: Round, about 25 ft diameter and 14 ft. thick. See attached
sketch drawn by the witness.

COLOR: Blinding bright, like arc-weld glow; witnesses had to
squint their eyes.

SOUND: Loud swishing.

DISTANCE FROM WITNESSES: 95 ft from Mr. [REDACTED] and his daughter.
1/4 mile from Tom Duberstein and his friend Mike Schilling.

ALTITUDE: Hovered 10ft above ground.

SPEED: It took 3 seconds to disappear.

TACTICS: Flew from North at slow speed then hovered for 2 to 3
minutes above the fence, then climbed to a height of
about 600 ft, it leveled off and zoomed away. The object
barely missed the antenna on the roof of [REDACTED] home.

COMMENTS:

Mr. [REDACTED] and his daughter Linda were roused from bed by a weird noise. First they saw the object through the window, then they went outside but did not dare to approach it. At the same time his son Tom with his friend Mike Schilling on their way home saw from a distance of a 1/4 mile the same object traveling Southwards. They said they also heard a weird noise.

Police deputies could find no evidence in the yard around the home. There was no air traffic at time of sighting. No photographs were taken, no binoculars used.

Dogs were furiously barking at time of sighting. House lights dimmed when the object was near. Mr. Duberstein felt tremendous pressure on his eardrums as if sounds of thousands of bees. As no radio or T.V. was on - no effect could be observed. Also no odor or smell was detected in air after the object left.

Mr. [REDACTED] and his family never read any books or magazines on UFOs. They all became firm believers after the sighting but the young ones are afraid to wander around after dark.
