RADIOTELEGRAPH PROCEDURE

1. WHAT TO REPORT

Report immediately all airborne and waterborne objects which appear to be **HOSTILE, SUSPICIOUS** or are **UNIDENTIFIED**.

Guided Missiles

Surface warships
positively identified as
not U. S. or Canadian

Aircraft or contrails which
appear to be directed
against the United States,
Canada, their territories
or possessions

Submarines

Unidentified
Flying Objects

2. SEND TO ANY

United States Naval Radio Station
Canadian Naval Radio Station
United States Coast Guard Radio Station
United States Commercial Radiotelegraph Station
Canadian Department of Transport Coastal Station

Receiving station
will relay to
military destination

3. HOW TO SEND

* MERINT MERINT MERINT (Coastal Station) DE

receiving station

5. SEND THIS KIND OF MESSAGE

Content—

- a. Begin your message with the word "MERINT"
- b. Give the reporting ship's name and signal letters
- c. Describe briefly the objects sighted
- d. Give ship's position when objects are sighted, also TIME and DATE
- e. If objects are airborne, estimate altitude as "low", "medium", "high"
- f. Give direction of travel of sighted objects
- g. Estimate and give speed of sighted objects
- h. Describe condition of sea and weather
- i. Give other significant information

Example—

MERINT

SS TOLOA
WHDR

TWO UNIDENTIFIED SURFACED
SUBMARINES

ELONGATED CONNING TOWERS

NOT TO
LEAVE
RESERVE ROOM

6. SEND IMMEDIATELY

THE LIBRARY

ONONDAGA COMMUNITY COLLEGE

RT. 173, ONONDAGA HILL

SYRACUSE NEW YORK 13215

NOT TO

LEAVE

RESERVE ROOM

a. DO NOT DELAY YOUR REPORT DUE TO LACK OF INFORMATION

b. EVERY EFFORT SHOULD BE MADE TO OBTAIN ACKNOWLEDGMENT FROM RECEIVING STATION THAT MESSAGE HAS BEEN RECEIVED.

* The International urgency signal (XXX XXX XXX) may be used as an alternate to clear circuit.

DEPARTMENT OF THE NAVY
OFFICE OF THE CHIEF OF NAVAL OPERATIONS
WASHINGTON, D.C. 20350

IN REPLY REFER TO
Ser 09B15D/520570

1 AUG 1980

Mr. Peter A. Gersten
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

Dear Mr. Gersten:

This is in response to your letter of 22 July, concerning the ship's deck logs of the USS FRANKLIN D. ROOSEVELT (CVA 42).

The logs of the USS FRANKLIN D. ROOSEVELT (CVA 42) have been searched for the period from 1 September through 31 December 1958. No entries were found relating to any UFO sightings at any time during the above period.

Regardless of the absence of any entries concerning UFO sightings, copies of the above logs will be provided if you still so desire. The logs consist of a total of 328 pages. At a cost of \$.10 per page, total cost for reproduction is \$32.80. Send remittance to this office (Op-09B15D), by check or money order, made payable to the Treasurer of the United States.

Upon receipt of your remittance, it will take approximately three weeks for the logs to be processed for forwarding to you.

Sincerely,

John M. Lorusso
JOHN M. LORUSSO

Assistant Vice Chief of Naval Operations
Director of Naval Administration
Acting

/on CAVS Letterhead Stationery/

July 27, 1980

Chief of Naval Operations
Headquarters, U. S. Department of the Navy
Washington, D. C. 20380

Sir:

It is my understanding that the U. S. Navy aircraft carrier (CVA-42) Frank-
lin D. Roosevelt has been involved in a number of encounters with unexplainable
aerial objects (a.k.a. flying discs/saucers and UFO's) during the time of its
active operations; specifically, the incidents of 1952, 1953, and 1958, which are
documented in the carrier's official deck logs.

Under terms of the U. S. Freedom of Information Act, I hereby request that
you provide me with photocopies of the pertinent log entries on these incidents
as well as copies of all other UFO-related entries recorded in the logs during
the entire commission life of the carrier. I also ask that your fulfillment of
this request include copies of the following records: all intelligence reports
generated in response to the events/accounts/technical data entered into the logs
on these incidents, to include any and all photographic evidence, radar docu-
mentation, and written narratives prepared by the affected personnel.

It is presumed that as a representative of a public-interest organization
I will be afforded the opportunity to request a waiver for all the records-
search/reproduction fees you might choose to levy upon fulfillment of this re-
quest.

John W. Bryant

NATIONAL SECURITY AGENCY
CENTRAL SECURITY SERVICE
FORT GEORGE G. MEADE, MARYLAND 20755

3 November 1992

Serial: J9363A-92

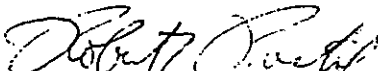

Mr. Chester C. Grusinski
[REDACTED]
[REDACTED]

Dear Mr. Grusinski:

This replies to your 10 October 1992 letter appealing the adequacy of the National Security Agency's (NSA) search under the Freedom of Information Act for information or evidence about UFO sightings by crew members of the USS Franklin D. Roosevelt CVA-42. Your original request, the Director of Policy's search effort, and your appeal letter have been reviewed. As a result of this review, I have determined that the Office of Policy conducted an adequate search and that NSA has no record responsive to your request. While you may have obtained a copy of some documentation from the public domain, there is no record of the incident at NSA.

Even though the Agency has no document responsive to your request, this response may be construed as a denial of your appeal. Accordingly, you are hereby advised of your rights under 5 U.S.C. § 552 to seek judicial review of this determination. You may seek an order from the United States District Court in the district in which you reside, in which you have your principal place of business, in which the Agency's records are situated (U.S. District Court of Maryland), or in the District of Columbia for the production of any Agency records which you consider to have been improperly withheld by this Agency. Title 5 U.S.C. § 552(a)(4)(B) sets out your rights in this matter with respect to such judicial action.

Sincerely,

ROBERT L. PRESTEL

Freedom of Information Act/Privacy Act
Appeals Authority

In 1950 the Pentagon tried to thwart the publishing of the first American book on the subject written by Donald Keyhoe "The Flying Saucers Are Real". The Pentagon insisted the publishing of the book would affect the national security of the United States. This unusual action by the Pentagon indicates that a good deal of concern about UFOs existed behind the scenes. Public releases about the phenomenon countered the hidden position of the Pentagon. Press releases indicated the phenomenon was "not a threat to the nations security" and the phenomenon might be a previous undiscovered "natural phenomenon". By 1950 the nations national security structure knew that perception of the phenomenon by the average American would pose a threat to the nations security. How could American public perception of a "natural phenomenon" be a threat to the nations security? Perhaps knowledge about the phenomenon presented the potential for a dislocation in traditional human institutions and world view!

— In 1950 the "revolt of the Admirals" led to the placement of nuclear weapons on Naval ships. The first Naval ship to carry nuclear weapons was the aircraft carrier F.D.Roosevelt. The FDR strangely developed during its Naval service a case history of UFO contact. UFOs followed the FDR extensively in the Atlantic, from Brazil to Guantanamo, Cuba, to England and to the ships home port in Mayport, Florida. The Atlantic surveillance of the FDR is another example of the watchful eye of another self interest at work, but by who?

Major General Charles Cabell, Chief of Intelligence, USAF Headquarters, Washington D.C. went into a screaming rage that he had been "lied to" when he found out that project "Blue Book" was nothing but a front operation designed to explain away UFO sightings. A short time prior to the Generals outbreak the Pentagon had arranged for "Life" magazine to do an article on the UFO. Bob Ginna's "Do We Have Visitors From Space" published in the summer of 1952 was a clever ploy that "set the extraterrestrial hook" in American thinking and established an "escape valve" for the disturbing UFO reality that was unfolding and the potential impact on the traditional world view. The General was promoted to the position Deputy Director of the Central Intelligence Agency where he remained for ten years. The General for not making waves and being a good soldier was promoted.

The extraterrestrial view-point was further reinforced during the 1950's by what some researchers think was a CIA sponsored and fabricated contactee movement. With the clarity of hindsight we see the contactee movement as a brilliant maneuver that linked and nurtured absurdity to the phenomenon, while at the same time advancing the interplanetary and extraterrestrial fantasy. This effectively channeled the scientific community into a UFO dead end. The American Doctor of Philosophy still has not recovered from the mental manipulation and world view imposed on American science by the National Security Council. Behind the scenes a real abduction phenomenon was taking place that was being monitored with extreme interest by the military. Years later J.Allen Hynek after a statistical survey of the abduction phenomenon calculated the potential for 40 million Americans having been abducted.

Another control to the veracity of the phenomenon by the National Security Council was the Robertson Panel. The NSC ordered the Intelligence Advisory Committee to instruct the CIA to form the celebrated Robertson Panel. The panel composed of the elite of American scientists was maneuvered by CIA personal to ridicule, undermine, and strip the phenomenon of the aura of mystery it had acquired in the American mind. One must remember Americans were witnessing a real event. This panel of the elite of American scientists followed the CIA directive to attack the psychology of the American people. The American people were accused of having "war jitters" and were seeing hallucinations. Excessive American imbibing promoted these delusions. Pressure to undermine the validity of the UFO experience was directed at government agencies, the scientific community, the nations wire services, and the nations educational institutions by this CIA dominated group. Even the Civil Aeronautics Administration was ordered to build air traffic control radars in 1952 that filtered out unusual and embarrassing returns. The frequency of UFO sightings had become a major problem for the National Security Council's "secrecy machine".

Recently in 1995, Senator Jeff Bingaman [NM] queried the Pentagon about the special project "Moon Dust". After a long run-around denying that such a project existed by the Pentagon, there was a slip by the freedom of information act sensors. It is now known the project was real and operational in 1953. This ultra secret project was formed to recover fallen "space debris" and its origin could be traced back to 1946.

If space debris secret operations go back to 1946 then we must take a look at radar. Project Diana, was a special toy for Dr. Donald H. Menzel. Dr. Menzel was one of the leading scientists at Project Diana. The project was set up to bounce radar waves off the moon. The project was a success in April, 1946 with

CHAPTER III

MERINT REPORTS

SECTION 1 - GENERAL

301. Information to be Reported and When to Report.

Sightings within the scope of this chapter, as outlined in paragraphs 102b(3), (4), (5) and (6) are to be reported immediately as follows:

(1) Hostile or unidentified single aircraft or formation of aircraft which appear to be directed against Canada or the United States or their forces.

(2) Missiles.

(3) Unidentified flying objects

(4) Hostile or unidentified submarines.

(5) Hostile or unidentified group or groups of military surface vessels.

(6) Individual surface vessels, submarines, or aircraft of unconventional design, or engaged in suspicious activities or observed in an unusual location.

(7) Any unexplained or unusual activity which may indicate possible attack against or through the United States or Canada, including the presence of any unidentified or other suspicious ground parties in the Polar Region or other remote or sparsely populated areas.

SECTION II - PROCEDURES

302. General.

a. Communication procedures to be employed will be basically those prescribed for the communications system or services used. Canadian and United States merchant ships will employ normal international commercial communication procedures and utilize existing commercial or military facilities as appropriate. Every effort will be made to obtain an acknowledgment for each MERINT message transmitted. Vessels which are manned by military or civil service per-
