

Large UFO spotted over Texas

On the night of September 3, 1965 [REDACTED] (career law enforcement officer) spotted a gigantic UFO silently floating above Damon Texas. Another officer ([REDACTED]) also saw the strange craft which was estimated to be approximately 200 feet across, and 50 feet wide. Resembling a flying wing, the UFO had one bright pulsating purple light on one end, and a solid blue light on the other end. The craft was flying at an altitude of 100 feet, and cast a shadow on the ground which was “as large as a football field”. It was dark gray in color, but no windows or portholes were visible. Officer [REDACTED] put his hand outside the window of his patrol car, and could feel heat emanating from the craft. Startled, both officers fled the scene at an estimated 100 mph.
