

Dear [REDACTED]

2/16/05

THANK YOU!!

Enclosed, please find an audio tape copy of the interview you did with [REDACTED] that was recorded in December of 2003. I am also including a new set of illustrations of the 40 foot disc. These illustrations are preliminary, and I fully realize that they are subject to corrections. I'm currently working on getting the air-intakes corrected per the drawings you sent back to me. [REDACTED], please feel free to mark up any changes, and I will send you back corrected copies.

Regards,

2/18/05

MIKE - ~~NO NEED TO SEND~~ THE SIX

ILLUSTRATIONS OF 40' DISC ~~BACK TO YOU~~

YOU SENT ARE ALL QUITE WRONG. YOU HAVE

CHANGED THE DESIGN ON - LANDING GEAR -

EXHAUST ~~AND~~ AIR INTAKES ~~ENTIRELY~~ ^{AND} COCKPIT ~~ENTIRELY~~ ^{ENTIRELY}.

IF YOU WANT THEM CORRECT YOU SIMPLY MUST DISCARD
MUCH CHANGE FROM WHAT I TOLD YOU INITIALLY. THE
CONTROL FLAPS AROUND EDGE OF DISC WERE NOT EXCEEDINGLY
NOTICEABLY OUTLINED. THE REAR VIEW AND SIDE VIEW
ARE CLOSEST AS FAR AS OUTLINE SHAPE AFTER YOU CHANGE AS IVE
TRIED TO ILLUSTRATE AGAIN: REGARDS, [REDACTED] (COVER)

P.S. YOU WILL RECALL THAT I OK'D YOUR ILLUSTRATIONS WITH MY COMMENT THAT AT THAT TIME THEY WERE GOOD ENOUGH, SINCE THEN YOU HAVE GONE WAY BEYOND SIMPLE HAND DRAWN ILLUSTRATIONS — AND RIGHTLY SO, NOW THAT YOU ARE USING THEM THE WAY YOU NOW ARE AND MAJOR CORRECTIONS ARE NOW NEEDED. REMEMBER, I TOLD YOU THE AIR INTAKES WERE REALLY NOT LARGE ENOUGH AND EXCEEDINGLY DIFFICULT TO DRAW ON SUCH SMALL ILLUSTRATIONS. EXHAUSTS ARE TOO BIG AND WRONG SHAPE. ~~SHOULD BE ELONGATED/STREAMLINED~~ COMING OUT OF BOTTOM OF DISC. AGAIN, YOU ARE CHANGING THE SHAPE OF THE COCKPIT AND COCKPIT WINDOWS FROM WHAT WE AGREED WERE FAIRLY CLOSE ILLUSTRATION OF ACTUAL.
