>

>UFO sightings are being reported from Punta Arenas and Iquique
>which are hot spots at this very moment.

>

>In Iquique (North region of Chile) a group of AION (2 members and
>3 friends) were skywatching between the 19 and 21 of Sept., 1997.
>On Sunday morning (Sept. 21) at about 4:30 A.M. they spotted a
>flotilla of 10 UFO's flying in a lined formation. Rapidly they
>got their spot light and started making signals, they also started
>filming, and for their surprise the objects broke their formation
>and started heading towards them. I saw the video they took a few
>days ago (3 min. aprox.) and it's pretty good. The problem was
>that the spot light went off and so did the video camera.
>You can see on the video the UFO's and the black sky, the it
>all starts to turn blue as if it was daylight and the video stop
>and starts again when the UFO's start going away and the camera
>goes dead again.

>

>These same people said a few days ago that they have located a
>place where it's sure to see UFO's.

>

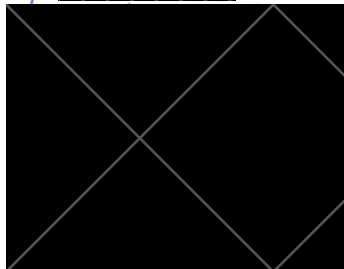

>Soon I will have their full testimonies that were taped on that
>same day.
