Nick Begich began his research on electromagnetic weapons in the early 1990s. Since then he has given numerous speeches on the topic, and has written books on the science that allows these devices to manipulate the biological systems of humans. He has appeared on many radio and television programs and has served as an expert witness in front of the European Parliament.

His message is simple: these technologies have been in use for decades, and they should be used to benefit mankind, instead of subjugating it to advance the agendas of the state and the deep-pocketed. Learn More (<http://www.earthpulse.com/epulseuploads/articles/MindControl.pdf>).
