>

>Go to [REDACTED]
>for the whole article from 1955 LOOK Magazine.
> Saucers are made on Earth.
> This is a comment from the website:
> "Soon after this 1955 LOOK Magazine article, news releases covered the
>story of the clunky "AVRO Aircar", driven by a couple of fan blades that
>wobbled. The thing didn't get more than 4 feet off the ground. This
>seemed to satisfy the "public need to know" about saucers being produced
>at A. V. Roe Company.
>

> At the end of WWII, three weeks before the U.S. went to Peenemunde
>to nab the V-2s and the scientists, including Werner Von Braun, the
>Brits went into the underground redoubts of the Nazis in Austria, the
>Black Forest and Thuringia. The results were THREE top secret trains,
>one of them 8 miles long (that one train alone was 655 box cars and flat
>cars). The Brits also grabbed the disk engineers, including Herr Mieth
>(later traced to the employ of A.V. Roe). The trains took the stuff,
>some of which was too large to fit in box cars and had to be covered by
>tarpaulins on its way to the coast of Brittany (France), there to be
>loaded on board ships, taken through the Panama Canal up the coast to
>Vancouver, B.C., and from there by train inland to the newly constructed
>surface facility of the A. V. Roe Company. 150 pre-fab factory buildings
>were sent from England to the same site. By 1947 it was dug completely
>underground.
>

> An underground facility with vertical shaft as pictured in the LOOK
>article, still existsc obwebbed and silent about 150 miles East of
>Vancouver, British Columbia.

> In 1952, the U.S. probably traded the H-bomb secrets to Great
>Britain in return for all the saucer technologies and wind tunnel
>research done in Canada. By 1958 the technology had developed silent,
>electro-gravitational, Biefeld-Brown type drive.

> The "motors" inside the remotely flown, pilotless craft, are

>drawing their power from electrical current fed into the Schumann cavity
>(an area between the surface of the Earth and 50 miles up from the
>surface). The electrical and magnetic fields set up inside the craft
>are not conducive to life. "Alien" looking pilots are being cloned and
>produced at the deep (7-levels, Andromeda Strain) underground
>bio-genetic lab on the Jicarillo Apache Indian Reservation near Dulce,
>New Mexico. These clones do not "live" long, and so are perfect for
>placing in the craft as "artificial"
>pilots. The Punch
>& Judy show continues."
>
