

VADUZ

Schloss Vaduz, 28. März 1994

CSETI

Mr. Steven M. Greer, M.D.
International Director

Dear Mr. Greer,

Thank you very much for your letter of March 7 and the papers you have sent me. I assume that in the meantime you have received my letter of March 11. As I wrote in my last letter I basically support your intentions to convince the Clinton administration of a change of policy on this controversial subject, but I am highly sceptical of the chances of success. For the moment I do not see a possibility to meet you in the US, but should you come to Europe I would be very pleased to see you and to discuss with you the whole matter.

With all the best regards,

Hans-Adam Liechtenstein
