

December 5, 1994

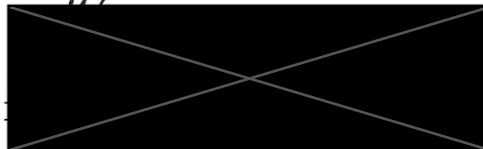

Dear Steve:

Thank you for your very informative letter last month. We appreciate receiving the information you provided.

Our best wishes as you leave the medical profession to devote full time to your extraterrestrial interests. Your dedication to this field at substantial personal sacrifice is extraordinary. I hope that your new full time commitment provides a full measure of satisfaction, and look forward to following this matter with interest.

By way of helping out, I am willing to renew the gift made in January of this year early in 1995. This would be for your continuing efforts to find more than anecdotal evidence of the existence of extraterrestrial vehicles.

Sincerely,

Steven M. Greer, M.D.
