Re: DF relay, Liechtenstein - Typos corrected, last page...

[REDACTED]

Thanks for several of you bringing to my attention several typos on the last page of my previously transmitted book alert about Tom Bower's new book: "Nazi Gold," (Harpercollins).

--> A corrected version of the end of my transmittal follows.
Note: Permission is given to reproduce all or part of the entire "alert," provided that my personal comments are quoted in the entirety, in context and that an accurate attribution is given.
Thank you again, and good luck to us all.

(Please insert after: //(End text quotes, from "Nazi Gold.")// the following, substituting through end of my previous e-mail.)

*** Our own followings of funding for "political psychiatry" and so-called "mind-influencing" in the American research and intelligence community will have to await another venue. But, if the "False Memory Syndrome Foundation" were a for-profit rather than non-profit organization, I'd yell: "Sell FMSF Stock!"

Because, as this all unravels and victims of American "UFO" and other "experimental psychiatry" figure out what has been done to them, by whom and for what purposes, the deepest of pockets in the trousers of so-called "UFO

advocates" and their backers won't be deep enough to ignore and evade the money trails which lead DIRECTLY to them and their foreign buddies.

Finally, I'd say "the UFOlogist formerly known as Prince," in his Schloss Vaduz overlooking his little Principality, has not a few Americans to answer to for his supporting of counter-intelligence operations and cultural disinformation campaigns targeted at the American people and their President.

As the article about him in the Wall Street Journal recently clarified for us, His Arrogance the Prince has some pretty bizarre notions of how democracy works. But he's about to get a BIG dose of Jefferson and his legacy, when "UFO victims" lay claim to Liechtenstein's holding in U. S. banks.

Diplomatic immunity may work for the Sultan of Brunei and his "sex-toy babe" importing trade. But in terms of the heavy Swiss investment in the United States, it is not too much of a sacrifice by the Swiss and the disgruntled folks in Liechtenstein...already tiring of their "Little Prince's" weirdly eccentric arrogances... to toss HRH Hans Adam II overboard with his American operative, ex-Commander [REDACTED], USN-Ret., U. S. Intell. community, ret'd., and American sell-out.

Note to [REDACTED]: I told you we could do this the "easy way" or the "hard way," you lying SOB. Now your ass belongs to the masses. Over and out, Sky Pilot. Tell your "Source" we all said, "Hello!"

Watch the skies. There are "planet killers" Out There, weaving a new world from bizarre beliefs as self-anointed shamans. The most concern of Hans Adam's funding should be focused on his support for "T.R.E.A.T." and its "grande dame," who is wed to a former U. S. Army General, ex-head of Army Intelligence and Security Command...with his acolytes ALL hither-and-yon in the "UFO" and "abduction" fields, among others, and who is now so far "above it all" in terms of accountability, that General S has secluded himself, no doubt to sit atop the mountain while he takes down orders from "The Emperor

of the Galaxy" that he and his followers will seek to impose. But: DO remember "Vril."

And as Holocaust survivors say: "Never again. Never forget."

And as Malcolm X said, as to how: "By any means necessary."

And Jefferson? Well, he's sufficiently on the record for us all.

CloudRider's moving on. Y'all keep up your fine work. It's OVER!
