

The
DISCLOSURE PROJECT

July 27, 2001

Senator Tom Harkin

Dear Senator Harkin,

May 9, 2001 The Disclosure Project held a landmark press conference at the National Press Club in Washington DC with over 20 government, military and corporate witnesses coming forward to discuss what they had seen and experienced regarding the UFO/ Extraterrestrial phenomenon and advanced energy and propulsion systems. Enclosed is a video tape of the testimony of those courageous individuals as well as dozens of others. Also included in this packet is an Executive summary of this evidence and a copy of the Washington Times article which appeared at the time.

We have learned that there have been a number of ways that you have directly or indirectly interfaced with this project. Dr. Steven Greer who directs the project met in the spring with Amb. John McDonald and was very well received. Ambassador McDonald fully supports what Dr. Greer is trying to do and recommended that the Project use his name in contacting President Carter. Last week a former Iowan who is helping us, Tom Hansen, happened to also contact Amb. McDonald who requested that we send him the video. Mr. Hansen made the connection that you also know and work with Amb. McDonald. Also, by chance when you were hiking in Colorado in July you ran into a young man on the top of a mountain who had just been at a retreat sponsored by The Disclosure Project about the same subject. He related to us that you expressed an interest in learning more about it.

Thus, we are sending you these materials in hopes that you will review them. You are welcome to contact Dr. Greer to answer any questions you might have on the subject. (private office line: [redacted]) He is often in Washington and would be happy to meet with you personally if you wish.

Very truly yours,

Emily Kramer
For the Disclosure Project

Director: Steven M. Greer, M.D.
The Disclosure Project is a division of CSETI
Center for the Study of Extraterrestrial Intelligence
